,, Accountant General.
,, Controller of Public Works Accounts.

Exd. R. H. Lee.

No 3648

REMARKS.

I. The services of a Millwright having been obtained from England for the limited period of one year, it is necessary that no time should be lost, and funds for the commencement of this work have had to be allotted.

II. The Consulting Engineer reports that the sum of Rupees 15,000, in addition to the Rupees 32,500 referred to in the last return, can be spared from the grant for lands to be taken up for the Irrigation Company's Canal.

III. Rupees 20,000 were provided in the current year's Budget for the Foundry; but this item with others had to be struck out to meet the reduction in the Budget grant which was ordered to be made by the Government of India. As the Public Works Workshop without the Foundry would be incomplete, and the machinery sent out years ago from England is being deteriorated by lying idle, it has been considered proper to allot funds for the immediate commencement of the necessary buildings.

IV. The present accommodation is limited, and much discomfort being in consequence experienced by the Members and Secretaries of the Board of Revenue, funds have been allotted for the commencement of four additional rooms on the upper story.

V. The Superintending Engineer reports that he will be able to spare this amount from the allotment for the new Artillery Barracks at Cannanore.
