*Proceedings of the Madras Government, Public Works Department,  
6th January 1866.*

No. 109. Read the following letter from the Controller of Public Works Accounts, to the Secretary to Government, Department Public Works, dated Madras, 15th December 1865, No. 2,480 :—

Enclosure 1.

1. I have the honor to submit, for the information of Government, the accompanying statement exhibiting the allotment for each Division, and the progress made in the expenditure in each Range of this Presidency up to the end of October, or for the first half of this official year, as far as the accounts received into this Office have enabled it to compile such a document.

2. It will be observed this statement is not quite complete, as the accounts from a few Ranges have been received for five months only, but an average taken for this period will give a fair idea of the probable expenditure incurred in the month for which accounts are wanting.

3. This document has been prepared and submitted with a view to inform the Government of the progress made in the expenditure during the period for which it has been framed. The accounts to be submitted by this Office are so much in arrears, owing entirely to the want of hands, I ventured to think the better way to keep up a knowledge of what was taking place would be to send in such a paper.

Expenditure up to 31st October 1865 on "Works" and "Tools and Plant."

MADRAS,  
15th December 1865.

(Signed) J. F. FISCHER, Captain, R. E.,  
Controller of Public Works Accounts.

*Proceedings of the Madras Government, Public Works Department,  
6th January 1866.*

No. 110. ORDER THEREON, 6th January 1866, No. 52.

ACCOUNT, No. 9.

1. From the Statement which forms an enclosure to the letter from the Controller of Public Works Accounts above recorded, the Government observe that the expenditure in the Godavery, Kistna, Nellore, Cuddapah, North Arcot, Coimbatore, and Tinnevely Districts during the half-year ended the 31st October last, bears a fair proportion to the allotment.

2. In the Ganjam and South Arcot Districts, the outlay fell short of a moiety of the available funds by about Rupees 6,500 and 13,000 respectively, while, in the other Districts, the expenditure was in some cases rather more, and in others much less than one-third of the assignment, as shown below:—

3. Notwithstanding the large balances which remained unexpended in the Districts above mentioned on the 1st November last, the Government have received several applications from the Superintending Engineers for additional grants. It is evident that these applications have, in many cases, been made without any reference to the funds which were already at the disposal of the local Officers, and which, if the outlay during the preceding half-year be taken as a criterion, are not likely to be expended by the 30th April next.

4. The Governor in Council desires to call the special attention of the Superintending Engineers to the necessity for impressing upon their Executive Officers the importance of working fully up to their allotments, and of pushing on the works in progress in their respective charges with the utmost possible expedition. The Government will rely upon the Superintending Engineers using their best endeavours to utilize all the money which is at their disposal, or if this be impracticable, to give timely notice of the balances which are likely to remain unexpended, so that the surplus funds may be transferred to other Districts for which additional grants may be required.

Captain J. F. Snicker, R.E.  
Controller of P.W. Accounts.  
To, Colonel C. A. Orr, R.E.  
Secretary to Government, P.W.

Sir,  
I have the honor to submit for the information of Government the accompanying Statement exhibiting the allotment for each Division and the Progress made in the expenditure in each Range of this Presidency up to the 31st October, or for the first half of the official year, as far as the Accounts received into this Office have enabled it to compile such a document.

2. It will be observed this Statement is not quite complete as the Accounts from a few Ranges have been received for 5 months only, but an average taken for this period will give a fair idea of the probable expenditure incurred in the months for which accounts are wanting.

2. This document has been prepared and submitted with a view to inform the Government of the progress made in the expenditure during the period for which it has been framed. The Accounts to be submitted by this Office

Office

Office are so much in arrears owing  
entirely to the want of hands. I ventured  
to think the better way to keep up a  
knowledge of what was taking place  
would be to send in such a paper.

I have the honor to be

Sir,

Your most obedt. servant,

Wm. Pitt Rivers

Controller of Public Works Accounts.
