*Proceedings of the Madras Government, Public Works Department,
17th April 1867.*

No. 376. Read the following letter from the Officiating Superintending Engineer, 8th Division, to the Secretary to Government, Department Public Works, dated Ammainaickenoor, 6th April 1867, No. 30 :—

1. In reply to your Memorandum No. 60, of the 20th March 1867, I have the honour to report that no progress has been made in the examination of the project for a reservoir at Papanassum. This project has never been brought into a mature form : it was first thought of by Colonel Horsley, and a rough report was drawn up by Captain Roberts ; but a different site was selected by Captain Oakes, and again another by Lieutenant-Colonel Winscom, though neither of these Officers did more than obtain a few lines of level.

2. I have mentioned this project and the other* projects of magnitude in my letter No. 946, of the 18th September 1866, in answer to Memorandum No. 270, of the 11th September 1866, and am not able at present to recommend any other remunerative irrigation schemes for investigation. I have also reported separately on the Streevygoondum anicut project in my letter No. 2,191, of the 26th March 1867, with reference to your Memorandum No. 53 of the 18th idem.

No. 377. ORDER THEREON, 17th April 1867, No. 1,187.

IRRIGATION, No. 23.

As it appears from the Superintending Engineer's letter No. 2,191, of the 26th ultimo, that the plans and estimates for the Perryaur and the Streevygoondum anicut projects will shortly be completed, the Government request that no time may be lost in employing the special survey establishments allotted to the 8th Division in the investigation of the scheme for constructing a reservoir at Papanassum for the storage of water to supplement the supply in the Tambrapoorney river.
