MADRAS RECORD OFFICE.

Government of Madras.

Public works **DEPARTMENT.**

G.O. No. 1258	Press
521-22	Mis.-
Dated 29 4	1867 .

Not to be folded or roughly handled

[Handwritten signature]

*Proceedings of the Madras Government, Public Works Department,
29th April 1867.*

No. 521. Read the following letter from the Superintending Engineer, 4th Division, to the Secretary to Government, Public Works Department, dated Madras, 12th April 1867, No. 221 :—

1. When the chancel of Saint George's Cathedral was extended, it became necessary to imbed the new work into the old, and owing to the settlement of the new work, sundry cracks appeared both in the walls and roof of the chancel, and leakage ensued in the rains.

1 Plan.
1 Abstract Estimate.
1 Specification.

2. The damp thus created would not of itself be a matter of much importance, but the semi-dome over the Communion table has, as you are aware, been painted and decorated, and it is very desirable that the water should not get at and injure this. On that account the Trustees suggested that a second or false roof should be built over the chancel roof, the plan and estimate for which, Rupees 720, I have now the honour to forward, approved of by the Venerable the Archdeacon, and request that funds may be granted for the early execution of the work out of the Reserve "Civil Buildings."

No. 522. ORDER THEREON, 29th April 1867, No. 1,258.

CIVIL WORKS, No. 45.

1. Under the explanation afforded by the Superintending Engineer of the 4th Division, the Governor in Council sanctions the estimate amounting to Rupees 720 for the construction of a semi-terraced roof over the dome of the chancel of Saint George's Cathedral.

2. The work will be put in hand at once, and the expenditure charged against the Reserve under "Civil Buildings."

(True Extract.)

Colonel, R. E.,
Secretary to Government.

To the Superintending Engineer, 4th Division, with Plan, Estimate, and Specification.

N^o 221. Supg. Engineer's Office, Su-
nderland 12th April 1867.

From
Colonel A. J. M. Wilson R.E.
Supg. Engineer & Director

To
Colonel C. A. Orr R.E.
Secretary to Government P.W.D.

Sir,

Enclosure

1 Plan

1 Abstr. Estimate

1 Specification

When the chancel of Saint George's
Cathedral was extended, it became
necessary to insert the new work into
the old, and owing to the settlement
of the new work, sundry cracks appeared
both in the walls and roof of the chan-
cel and leakage ensued in the rain.

2. The damp thus created would
not of itself be a matter of much impor-
tance, but the semi-dome over the
Communion table, has, as you are
aware, been painted and decorated,
and it is very desirable that the
water should not get at and injure
this. On that account the Quarter
suggested that a second or false roof
should be built over the Chancel roof.

Yours

the plans and estimate for which Rd.
V20 I have now the honor to for-
ward, approved of by the Venera-
ble the Archdeacon, and to request
that funds may be granted for the
early execution of the work out of the
Reserve "Civil Buildings."

I have the honor to be

Sir

Yours most obedt servant

A. H. Hall, Civil Eng.

Supy. Engineer to Exr.

back to the first set of plans and
estimate. On that account the
proposed that a second set of
plans and estimate be prepared.
