*Proceedings of the Madras Government, Public Works Department,
29th April 1867.*

No. 523. Read the following Circular from the Secretary to the Government of India, Public Works Department, (Military Works), to the Local Governments and Administrations, dated Fort William, 8th March 1867, No. 24 :—

Block Plan of Lines for a Regiment of Native Cavalry.
Block Plan of Lines for a Regiment of Native Infantry.

I am directed to forward, for guidance, the plans specified on the margin, which have been approved by the Government of India, and to state that

although the detailed plans of buildings cannot be insisted upon when the men construct their own huts, still that they should be always adhered to when the buildings are constructed at the expense of the State. The block plans showing the general arrangement of the lines should be followed in all cases where it may be deemed expedient to do so, and they may be considered as indicating the maximum extent of ground that the Government of India will, in future, allow to be taken up for the lines of a Regiment of Native Infantry and Cavalry.

Copy forwarded to the Governments of Madras and Bombay, Governor of the Straits Settlements, Commissioner of Mysore, to the Military Department, Adjutant General, Quarter Master General, and Sanitary Commissioner for Bengal, for information.
