G.O. No. 1265	Press
535-36	~~Mis.~~
Dated 28 4	1867.

Not to be folded or roughly handled

[Handwritten signature]

*Proceedings of the Madras Government, Public Works Department,
29th April 1867.*

No. 535. Read the following letter from the Acting Superintending Engineer,
1st Division, to the Secretary to Government, Public Works Department,
dated Camp, Cocanada, 9th April 1867, No. 11:—

1. I have the honour to submit, with my approval, a plan and an estimate
amounting to Rupees 690, for alterations and additions to the Survapuram inlet,
together with an explanatory letter*
* No. 903, dated 27th March 1867. from Mr. Sage, in whose range the work
stands.

2. If the Government be pleased to sanction the estimate in question, the
necessary funds may be appropriated from the current year's Reserve.

From the Officer in charge of No. 1, or Eastern Delta Range, Godavery District, to the Superin-
tending Engineer, 1st Division, dated Dowlaishweram, 27th March 1867, No. 903.

When Colonel Moberly came to Dowlaishweram on 27th ultimo, he told me bridge over
Survapuram inlet was much cracked, and requested me to look at it; and, if necessary, pull it
down; accordingly, on 12th instant, I inspected the inlet, which has been in a shaky state for some
time, and found it was very dangerous, the cracks in centre arch admitting a hand to be passed into
them, and the other two arches very nearly as bad. I therefore directed the arches to be removed
at once, and now forward an estimate and two plans for so doing, and also for putting a timber plat-
form bridge in lieu of arches, as the failure of former arches appears to be owing to subsidence of the
two piers, and I did not think it safe to rebuild the arches. Early sanction is requested, as the work
is in hand to prevent delay to traffic on road, which is now very great.

No. 536. ORDER THEREON, 29th April 1867, No. 1,265.

IRRIGATION, No. 30.

The proposed additions and altera-
tions to the Survapuram inlet, in the
Godavery District, are sanctioned for
immediate execution from the Reserve under "Agricultural."

(True Extract.)

7th Division

Sir,

Cocanada.

When Colonel Moberly came to Dow-
-laismerum on 27th ultimo, he told me Bridge
over Survapuram Intet was much cracked,
and requested me to look at it; & if ne-
-cessary pull it down; accordingly on 12th
Instant I inspected the Intet, which has
been in a shaky state for some time, and
found it was very dangerous, the cracks
in centre arch admitting a hard to be pass-
-ed into them, & the other 2 arches very
nearly as bad. I therefore directed the
arches to be removed at once, & now for-
-ward an Estimate & 2 plans for so doing,
and also for putting a timber platform
bridge in lieu of arches, as the failure
of former arches appears to be owing to
subsidence of the 2 piers, and I did not
think
