*Proceedings of the Madras Government, Public Works Department,
1st May 1867.*

No. 7. Read the following letter from the Acting Superintending Engineer, 1st Division, to the Secretary to Government, Public Works Department, dated Camp, Cocanada, 9th April 1867, No. 12:—

I have the honour to forward copy of report of an inquest held at Cocanada on the body of a Lascar named P. Atchegadu, who fell into the river off an iron flat boat, or off an adjacent wooden platform, on the evening of the 3rd instant. He immediately sank in the strong current, and was seen no more alive; his body was recovered next day, he and another man were the Lascars detached for that evening to watch the Government property in the river. I request that I may be informed whether, under the circumstances, his wife will be granted any gratuity by Government. The man was sober at the time of the accident, which appears to have arisen from the shifting of a loose plank.

Punchayet Report.

At 6. P. M. on the 3rd instant, Cooly P. Atchegadu, inhabitant of Jugganadapoorum, has fallen suddenly in the salt water river between Cocanada and Jugganadapoorum, from a punt brought for the use of the new iron bridge work, and died, and the dead body is examined by us as well as village Curnum and Moonsiff, and Head and Deputy Constables, R. Ramaswamy and B. Chelliah, respectively; but not found flogs and wounds on the dead body; his age is about twenty-five years; and blood passes through the eyes and nose. On our inquiry, we think that the death of the above is caused by his being accidentally slipped in the river, but not by the trouble of others; and no jewels of gold and silver were found on the dead body.
