Note by the Right Honorable The
President on Letter No 1858 of 1864.

The Stone flooring at
Bangalore in the new buildings is
ill joined, and it is said damp.
The mortar comes out from between the
stones. I certainly did not think the
flooring satisfactory, but an experiment
which costs 1250 Rupees is too expensive.
Could not the tar floor be tried on a
part of one of the barracks. What is the
use of this experiment with tar when
we know that asphalt does very well.

Note by the Honble Sir J. Pycroft K.C.S.I.
It might be well to wait
and see how the tar flooring answers in
