*Proceedings of the Madras Government, Public Works Department,
2nd May 1867.*

No. 66. Read the following Proceedings of the Board of Revenue:—

Submitting Statements showing amount of annual revenue collected from 1820 to 1864 in Vizagapatam, Godavery and Nellore districts, and actual areas of cultivation with their assessment in those districts for a portion of that period. (Here enter 26th April 1867 No. 2,940.)

No. 67. ORDER THEREON, 2nd May 1867, No. 1,325.

IRRIGATION, No. 7.

1. The Government have reason to believe that the extent of land entered in the column headed "Wet" in the second of these Statements submitted by the Board of Revenue refers only to the irrigated land which is cultivated year by year under the Ryotwar system, and that no allowance has been made for water supplied to other land, such as that held by Zemindars and Inamdars, which, in the Godavery District at least, the Government believe to be of great extent.

2. It is also observed that no entry has been made of the water-rate levied in the Godavery District.

3. As, in its present form, the Statement in question is very liable to mislead and to induce erroneous conclusions, the Board of Revenue will be requested to re-submit it at an early date, the column headed "Wet" being made to include the whole of the irrigated area in each district, and a separate column being added to show the water-rate levied upon every class of land in the Godavery District.

NOTE.—The large increase in the extent of cultivation from Fusly 1272 is owing to the different rate adopted for converting Vissums and Garces into Acres.

The Collector reported that before Fusly 1272, a Garce of land was considered to be equivalent to 1½ Acre, and that during the inquiries of the Inam Commission it was discovered that every Garce of wet land is equivalent to 2, and every Garce of dry to 4 Acres.

for water supplied
other land, such as the
held by Zamindars

in the Godavery District

great extent.

It is also observed
that no entry has been
made of the water-rak
levied in the Godavery
District.

As, in its present
form, the statement
in question is very
misleading and

being made to in-
clude the whole of the
irrigated area in each
district, and a sepa-
rate column being
added to show the
water-rak levied
upon every class of land
in the Godavery Dis-
