***Proceedings of the Madras Government, Revenue Department,***
***1st May* 1867.**

No. 5. Read the following letter from the Superintending Engineer, 4th Division, to the Secretary to Government, Public Works Department, dated Madras, 24th April 1867, No. 399 :—

1. I have the honour to lay before Government, for their sanction out of the "Reserve" under Civil Buildings, an estimate of Rupees 4,400, illustrated by plans, for certain improvements to the Collector's Cutcherry at Chittoor, in the North Arcot District.

2 Plans.
1 Estimate.

2. It will be observed that the improvements contemplated, and which are exhibited in detail on the plans, are the provision of additional rooms with private and tiffin rooms attached, for the Collector and Assistant Collector, the extension of the accommodation for the Clerks and for the records, and for improvement of the light and ventilation of the Printing Office.

3. The estimate was framed at the instance of the Collector of North Arcot, who thus explains the necessity for the private rooms provided :—"These private "rooms, with their appendages, are simply indispensable to common comfort and "decency, the more particularly in this case, as the Cutcherry is distinct from the "private dwelling of the several officers who have to attend it daily."

4. The existing accommodation for the Clerks is insufficient. There is, therefore, much crowding, which the proposed enlargement will obviate.

5. The present Press-room is dark, and ill-ventilated, and the proposed improvement will facilitate work being carried on underneath.

6. The plan was prepared by the Assistant Engineer, Mr. O'Shaughnessy, in personal communication with Mr. Robinson, who entirely approves of the projected arrangements, and has countersigned the estimate.

Referred to the Revenue Department.
