Proceedings of the Madras Government, Public Works Department
14th May 1867.

No. 326. Read the following letter from the Director of Public Instruction, to the Chief Secretary to Government, Fort Saint George, dated Madras, 13th March 1867, No. 498 :—

1. I have the honour to submit the accompanying letter, No. 316 of the 8th instant, from the Principal of the Medical College, for the consideration of Government.

2. There can be no doubt of the convenience of having water brought to the College in the manner proposed, provided the tubing and corks work efficiently in this climate, a point on which I presume an affirmative decision has been arrived at, as the proposed mode of supply is to be adopted in the case of the General Hospital.

From the Principal of the Medical College, to the Director of Public Instruction, dated Madras, 8th March 1867, No. 316.

1. I have the honour to forward, for your information, and for ultimate reference to Government, a letter to my address from Dr Wyndowe,* in which he represents the great inconvenience to his department arising from the present mode

* To be returned.

of water-supply, and suggests that advantage be taken of the arrangement for conveying water from the Seven Wells to the General Hospital, &c., by pipes, to have a branch pipe laid down for the supply of the Medical College.

2. I beg to support Dr. Wyndowe's excellent suggestion, and to propose, in addition, that a branch pipe be laid down of such size as shall enable me, by smaller distribution pipes, to meet the wants of the Practical Anatomy and of the Practical Pharmacy rooms, as well as those of the Chemical department, details being considered in communication with the Executive Engineer.

From the Professor of Chemistry, to the Principal of the Medical College, dated Madras, 8th March 1867.

1. I have the honour to solicit your attention to the great inconvenience which exists as regards the water-supply to the Chemical Laboratory ; opportunity is now afforded of remedying this defect, pipes in connection with the Seven Wells are at present being laid down to the General Hospital and Penitentiary, a branch pipe might easily be adapted to supply the wants of the Medical College, and from this a supply pipe with stop corks, basins, &c , might be fitted up in the Laboratory for the use of the Students.

2 I would, therefore, request the favour of your obtaining the sanction of Government to this arrangement, which is urgently needed.

Transferred to the Department of Public Works.

(Signed) A. J. ARBUTHNOT,
Chief Secretary.

FORT SAINT GEORGE,
4th May 1867.

No. 327. ORDER THEREON, 14th May 1867, No. 1,453.

MILITARY WORKS, No. 29.

The Superintending Engineer of the 4th Division, to whom these papers will be communicated, will be requested

to submit an estimate of the probable cost of supplying water, as proposed, to the Medical College at Madras.

(True Extract.)

(Signed) CHARLES A. ORR, Colonel, R. E.,
Secretary to Government.

To the Superintending Engineer, 4th Division.

Madras Medical College
8th March 1887

From S. J. Wyndome Esquire B.A.
Professor of Chemistry
To The Principal,
Medical College
Sir,

I have the honor to solicit your attention to the great inconvenience which exists as regards the water supply to the Chemical Laboratory, opportunity is now afforded of remedying this defect, pipes in connection with the seven wells are at present being laid down to the General Hospital and Penitentiary, a branch pipe might easily be adapted to supply the wants of the Medical College, and from this a supply pipe with stop corks & valves might be fitted up in the Laboratory for the use of the students.

I would therefore request the favor of your obtaining the sanction of Government to this arrangement which is urgently needed.

I have the honor to be,
Sir,

Yours most Obedt servant

Frederic Wyndome Esq
Professor of Chemistry

N^o 316. Madras Medical College
8th March 1867

From The Principal
Medical College
To The Director of Public Instruction
Madras

Sir,

I have the honor to forward for
your information and for ultimate
reference to Government a letter to my
x to be returned address from Dr. Wyndome, in which he
represents the great inconvenience to his
department arising from the present
mode of water supply, and suggests that
advantage be taken of the arrangement
for conveying water from the seven
wells to the General Hospital by
pipes, to have a branch pipe laid
down for the supply of the Medical
College.

2. I beg to support Dr. Wyndome's
excellent suggestion, and to propose, in
addition, that a branch pipe be laid
down of such size as shall enable
me, by smaller distribution pipes,
to meet the wants of the Practical
Anatomy and of the Practical Pharmacy
rooms,
