*Proceedings of the Madras Government, Public Works Department,
30th March 1867.*

GROUND OF PROPOSITION.

With a view of utilizing as much as possible the whole of the Annual Budget assignment for Public Works, the Superintending Engineers are required shortly before the close of each official year to furnish Statements showing the specific allotments which they may be able to surrender under the different heads of service, and the demands which have to be met under others, and on a careful review of these Returns, the available funds are diverted to the most urgent works. The transfers exhibited in this Statement are those which it has recently been found necessary to authorize, and their confirmation by the Government of India is accordingly requested.
