*Proceedings of the Madras Government, Public Works Department,
23rd May 1867.*

No. 574. Read the following letter from the Acting Superintending Engineer, 1st Division, to the Secretary to Government, Public Works Department, dated Camp, Dowlaishweram, 10th May 1867, No. 40:—

2 Estimates.
2 Specifications.
1 Plan of Sections.

1. I have the honour to forward for sanction two estimates, respectively Rupees 3,200 and Rupees 2,500, for forming banks between the ends of groynes

and the river embankment at Vellah and Muskapilly, villages situated in the eastern delta of the Godavery District.

2. At Vellah large sums of money have from time to time been spent on the groynes which are now in good order, but liable to be turned during high freshes; small banks were last year raised by Captain Ryves' order, but were topped and destroyed; for the safety of the groynes, embankments, bank channel, &c., it is absolutely necessary that the substantial embankments now proposed should be raised.

3. I inspected the groynes at Muskapilly a short time ago. Many of the groynes had been completely turned and separated from the river shore by a deep stream. They are now being put into thorough repair, the river having for a considerable distance encroached to within fifty yards of the bank channel; to prevent these groynes from being again turned, it is necessary that the banks now proposed should be raised.

No. 575. ORDER THEREON, 23rd May 1867, No. 1,571.

IRRIGATION, No. 32.

The Government consider that the works referred to in this letter should be treated as *repairs*, and their cost charged to the District Repair allotment.

(True Extract.)

(Signed) CHARLES A. ORR, Colonel, R. E.,
Secretary to Government.

To the Superintending Engineer, 1st Division, with two Specifications.

Plan of sec-
tions.

Sir,
I have the honor to forward for con-
sideration two Estimates respectively Rs. 3,200 and
Rs. 2,500, for forming banks between the ends
of Groynes and the River embankment at
Vellah & Muskapilly, Villages situated in
the Eastern Delta of the Cochin District.
2. At Vellah large sums of money have
from time to time been spent on the groynes
which are now in good order but liable
to be turned during high freshes. Small
banks were last year raised by Captain
Dyer's order but were topped and destroy-
ed; for the safety of the groynes, embank-
ments, bank Channel &c., it is absolute-
ly necessary that the substantial em-
bankments now proposed should be
raised.

3. Inspected the Groynes at Muskapilly

Enclosure is a letter
from the Acting Deputy
Asst. Commr. of the
District and to the
Asst. Commr. of the
District for forwarding
the same at Muskapilly.

1867 May 10

a short time ago. many of the groynes
had been completely turned and sepa-
-rated from the River shore by a deep
stream. They are now being put into thorough
repair, the River having for a considerable
distance encroached to within 50 yards
of the bank channel; to prevent these
groynes from being again turned, it is
necessary that the banks now proposed
should be raised.
