Coom river (or Bungaroo channel) in the Madras District, and rooting out nanel grass growing in the channel bed.

2. In consequence of the choked condition of the head, as shown in the plan, much of the water which would otherwise enter the channel goes down the Cortilliar. The proposed work, it is expected, will cause about one-third more water to flow into the channel, and the numerous tanks, including that of Chembrambakkam, depending on it will fill more rapidly.

3. The Collector of Madras has countersigned the estimate in token of approval.

4. The estimate of Rupees 7,370, sanctioned in G. O. No. 3,804, dated 29th November 1866, was for stone revetment to the channel which was continually breaching.

No. 586. ORDER THEREON, 25th May 1867, No. 1,576.

IRRIGATION, No. 33.

His Excellency the Governor in Council sanctions the estimate amounting to Rupees 5,300 for widening the head of the Bungaroo channel in the Madras District, and directs that the work be put in hand at once and the outlay charged to the Reserve under "Agricultural."
