No. 645. Read the following Endorsement of the Deputy Consulting Engineer for Railways, dated Madras, 20th May 1867, No. 159:—

Read the following letter from the Agent and Manager of the Madras Railway Company, to the Consulting Engineer for Railways, dated Madras, 17th May 1867, No. 183.

1. With reference to the Order of Government, No. 1,460, dated the 14th instant, passed upon the Report from the Consulting Physician of his half-yearly Sanitary Inspection of Stations on the Madras Lines of Railway, I have the honour to state that immediately upon its receipt, on the 6th ultimo, I forwarded a copy to the Chief Engineer and Traffic Manager, and extracts to the Locomotive Superintendent, and urged upon those gentlemen the necessity of giving effect, as far as was possible, to the recommendations and suggestions of Dr. vanSomerén.

2. I will now make known the Order of Government; but at the same time venture to remark that the question of conservancy is one difficult to deal with. Much, as you justly observe, has already been done in the right direction, and no pains will be spared to give effect to your practical suggestions.

3. The proposal to make one person responsible for the conservancy of our principal stations has formed a subject of discussion at two weekly Meetings, and will, I trust, be finally disposed of on Tuesday the 4th proximo.

Submitted for the information of Government, with reference to G. O. No. 1,460, dated 14th instant.
