*Proceedings of the Madras Government, Public Works Department,
3rd June 1867.*

No. 31. Read the following letter from the Acting Superintending Engineer, 1st Division, to the Secretary to Government, Public Works Department, dated Camp, Dowlaishweram, 20th May 1867, No. 49. —

1. I have the honour to forward a report called for in G. O. No. 3,963, dated 17th December 1866, on rails landed for Upper Godavery works by ship "Brockham."

2. I have myself inspected the rails, and agree entirely with the opinion expressed by the Committee assembled at Cocanada on 17th May 1867.

Report of Committee ordered in G. O. No. 3,963, dated 17th December 1866, to Survey and report upon sundry iron rails, landed from the ship "Brockham," for the Upper Godavery Works.

Committee assembled at 7 a. m. this day, and having indiscriminately selected ten (10) rails, weighed them, and found weight to agree with that specified in Packing Account.

On examining the rails, the Committee find them very rusty, but are of opinion that the five per cent. proposed to be deducted by Government on value is quite ample to cover the deterioration.

The Master Attendant being on leave, and it being necessary that the rails be transported up river, the Committee assembled without that officer.

Cocanada,
17th May 1867.

Executive Engineer, Godavery District.

Whereof Committee ordered
on G. C. 1843, dated 17 Dec 1843;
proceeding to be taken by
Iron Rails loaded from the ship
"Black Hawk" to the Upper Academy
Hills.

Committee of said test at 10 AM
this day, and having, in the morning,
submitted West of Hills, and
found, and found, weight, the
with the specified and finding
a result.

On examining the Hills,
the Committee find them very
substantial, and of opinion, that the Hills
for the purpose of the test is
by the number of cables, is quite
ample to cover the description.
