*Proceedings of the Madras Government, Public Works Department,
7th June 1867.*

No. 143. Read the following letter from the Superintending Engineer, 7th Division, to the Secretary to Government, Department Public Works, dated Coonoor, 23rd May 1867, No. 39 :—

1. Statement showing wet cultivation for last thirty years on certain channels.
2. Statement showing expenditure.

In forwarding the accompanying Statements called for in your Memorandum No. 53, of 11th March, I take the opportunity of calling your attention to my letter printed with G. O. No. 1,959, of 7th July 1864, as giving full information of the nature and amount of the work carried on before 1864-65, and remaining to be performed on the Thadapully and Arkencotta channels. My Memorandum, given with G. O. No. 2,317, of 21st July 1866, gives particulars of the Calingaroyen channel estimate; but the work actually done can hardly be considered to have been in conformity with it, as nothing but the earth-work has been touched; indeed, it has been more in the nature of repairs than anything else.

No. 144. ORDER THEREON, 7th June 1867, No. 1,707.

IRRIGATION, No. 5.

Recorded, with reference to G. O. of the 22nd March last, No. 884.

(True Extract.)

(Signed) CHARLES A. ORR, Colonel, R. E.,
Secretary to Government.
