*Proceedings of the Madras Government, Public Works Department,  
8th June 1867.*

No. 187. Read the following letter from the Acting Superintending Engineer, 4th Division, to the Secretary to Government, Public Works Department, dated Madras, 31st May 1867, No. 1,058 :—

1. I have the honour to lay before Government an application from Captain Magnay, Executive Engineer, Madras Water Works, as per margin, requesting that his Office Establishment may be

exempt from the penalty imposed upon them by the Controller, who only allows a salary of 25 Rupees per mensem individually, on account of their being unpassed men.

2. Colonel Boileau, the Superintending Engineer in charge of the division at the time, refused to take further steps in the matter, until the Controller had enforced the penalty, which he had not done at the date of Captain Magnay's application. He further informed him that G. O. No. 1,085, dated 8th April 1867, precluded the Controller from making any deductions in the salary bills.

3. On enquiring from the Executive Engineer why passed candidates had not been nominated, he informed me that such men would not remain permanently with him, but would seek for employment on the first opportunity on the fixed establishment. He further naturally objects to giving up his office servants at the present time, now that they have been trained under him to his satisfaction.

No. 188. ORDER THEREON, 8th June 1867, No. 1,725.

ESTABLISHMENT, No. 21.

The Government regret that they are unable to sanction any relaxation of the rules in favour of the members of the

Office Establishment attached to the Engineer in charge of the Madras Water Supply Project.
