*Proceedings of the Madras Government, Public Works Department,
15th June 1867.*

No. 344. Read the following letter from the Acting Superintending Engineer, 6th Division, to the Secretary to Government, Department Public Works, dated Tanjore, 5th June 1867, No. 355 :—

1. I have the honour to report, for the information of Government, that a portion of the jetty at Negapatam was destroyed on the night of the 12th May by the under scour of the inland drainage produced by the late local rains which fell near the coast. An estimate of Rupees 1,040, for restoring the jetty, has been submitted through the Collector to the Superintendent of Marine for sanction from the Port Fund. I purpose submitting an estimate for a defensive work which, it is hoped, will save the jetty from similar accidents in future.

2. A survey of the ground to the north of the jetty has been called for from the Range Officer to enable me to prepare the necessary design.

No. 345. ORDER THEREON, 15th June 1867, No. 1,801.

CIVIL WORKS, No. 47.

Ordered to be recorded.
