1. The sanction of the Government of India is necessary to the prosecution of the works entered in this list, the estimates for which exceed Rupees 10,000 in each case. These works are chiefly some of those which, remaining incomplete at the commencement of the present official year, it is most desirable should be continued and carried to completion to prevent loss.
2. This Government have decided that, as great Military lines of communication, the roads leading from the Fort towards the Mount and Poonamallee should be maintained at the expense of the State instead of from Municipal funds, and as provision was not made for the purpose in the Budget, an allotment has been made from the "Minor Works Grant."
3. Owing to the smallness of the current year's "Minor Works Grants" under heads other than "Agricultural," it has been found necessary to divert to the remaining works in this list, the progress of which it would be most undesirable to suspend, portions of Budget allotments that are not likely to be fully expended.
