40-11.

Dated 2- 7- 1867.

Not to be folded or roughly handled

No. 40. Read the following letter from the Acting Superintending Engineer, 4th Division, to the Secretary to Government, Public Works Department, dated Madras, 19th June 1867, No. 1,393 :—

1 Abstract Estimate.
1 Specification.

1. With reference to paragraph 8 of the Order of Government in the Public Works Department, No. 1,494, dated 17th May 1867, I have the honour to submit for sanction an estimate, amounting to Rupees 3,780, for strengthening the floor of the soojee room, altering the ovens and flues, putting up wooden partitions and railings, enclosing archways at the Bakery, and levelling and forming a road in the compound, which has been approved of by the Acting Commissary General.

2. The work was undertaken on emergency, at the request of Colonel Miller, and a sum of Rupees 3,568 has been granted by Government from the Reserve, in the list of incomplete works sanctioned in the order quoted above, for its execution in the current year. As a sum of Rupees 373 was expended in the last year, the actual amount requiring sanction is 3,407 Rupees.

3. Nearly one-half of the estimate, or a sum of fifteen hundred rupees, is required to provide new joists to the floors of the soojee and wheat rooms, as it was found that when the supplies for, and products from, the mill had to be piled in bags to the height of the roofing trusses, which occasionally might be the case, the floors were not of sufficient strength to bear the additional weight. The timber removed will, in portion, be utilized in the floors of the new flour mill which has to be built as an addition to the Bakery.

No. 41. ORDER THEREON, 2nd July 1867, No. 1,959.

MILITARY WORKS, No. 5.

* Rupees 3,568.
† „ 3,407.

1. The estimate is sanctioned.

2. As it appears from paragraph 2 that the current year's allotment* for the work is in excess of actual requirements† by Rupees 161, that amount will be re-credited to the Reserve under "Military."
