*Proceedings of the Madras Government, Public Works Department,
9th July 1867.*

No. 219. Read the following letter from the Controller of Public Works Accounts, to the Secretary to Government, Department Public Works, dated Madras, 4th July 1867, No. 932 :—

I have the honour to report that the books and records generally of this Office are now largely increased on account of the submission of accounts by Range Officers direct, and the present record-rooms are hence insufficient for their arrangement and accommodation. Besides this, the rooms are not very safe for the custody of records, having a tiled roof constantly infested with white-ants. I request that the Superintending Engineer or Executive Engineer at the Presidency may be desired to inspect the building, and report upon such improvement as can be made to provide for the above wants.
