Proceedings of the Madras Government, Judicial Department, 5th July 1867.

No. 49. Read the following letter from the Inspector General of Jails, to the Acting Chief Secretary to Government, Fort Saint George; dated Ootacamund, 24th June 1867, No. 52.

It having accidentally come to my knowledge that quarters were being provided for a Jailer or Deputy Jailer inside the enclosure of the Central Jail at Trichinopoly, I requested the Officer in charge of the gang on the site to furnish me with information on the subject, and I have the honor to enclose his reply, from which it will be seen that it is in contemplation to build the Jailer's house inside.

2. I am of opinion that no one of the Jail officials ought on any account to be permitted to live within the Jail enclosure. I submitted my views on this subject in my letter of the 22nd December last, No. 130, and I was under the impression that the matter had been disposed of in the order of Government noted in the margin.

Public Works Department, 17th January 1867, No. 156.

3. I have further the honor to request that if, during the construction of any Jail building, it is found necessary to modify the plans previously submitted and approved of by Government, I may be made acquainted with the same.

From the Superintendent of Central Jail, Trichinopoly, to the Inspector General of Jails, Ootacamund; dated 20th June 1867, No. 44.

With reference to your letter, No. 612, dated 15th instant, 1867, I have the honor to state that the present intention of Department Public Works, is to build the Jailer's house inside the Jail. I was informed of this some two weeks since, and immediately brought to the notice of the Engineer the inconvenience which would be the result of such an arrangement, and also mentioned former orders on the subject. As Captain Vertue is at present absent in the District, I am not able to state exactly the steps taken by that gentleman, but he afterwards informed me that he had represented the fact to the authorities in Madras and had suggested that the Jailer's house should be built over the main gate-way. I was yesterday informed by the Superintending Overseer that orders had come down from Madras that the Jailer's house should be built inside the Jail on the spot indicated by the plan. I should myself have reported this circumstance and was only awaiting Captain Vertue's return in order to do so more fully. In consequence, however, of your letter under reply calling for an immediate report, I have mentioned these circumstances without being able to ascertain from Captain Vertue the exact date, and the precise details of the correspondence.

No. 50. ORDER THEREON, 5th July 1867, No. 1061.

The Superintending Engineer of the 6th Division will report, without delay, the reasons which have led to the Jailer and Deputy Jailer's quarters being placed within the enclosure of the Central Jail at Trichinopoly. In paragraph 1 of the G. O., No. 156, dated 17th January 1867, Captain Oakes' attention was specially called to the objection raised by the Inspector General of Jails to this arrangement.

2. Pending the issue by Government of further instructions the construction of the buildings in question will be discontinued.
