*Proceedings of the Madras Government, Public Works Department.*  
20th July 1867.

No. 494. Read the following letter from the Consulting Engineer for Irrigation and Canal Company, to the Secretary to Government, Public Works Department, dated 8th July 1867, No. 41 :—

1 Plan.  
1 Estimate.

From Agent, No. 113, 10th ultimo.  
To do. " 74 of the 14th ultimo.  
From do. " 148 of the 3rd instant.

1. I have the honour to submit an estimate, Rupees 500, with its accompanying plan, for the reconstruction of the verandah of the Hospital at Kurnool and for the repair of the roof. The correspondence as per margin is likewise enclosed.

2. In the second paragraph of the Chief Engineer's letter, attached to the Agent's letter, No. 113, it is mentioned that the work included in this estimate is not intended to be carried out in a very substantial manner, but that it is considered that it will last as long, about four years, as the building is likely to be required as an Hospital. It is further stated that the cost of constructing the verandah roof in a permanent manner would be about Rupees 750. As the main building has been constructed in a substantial manner, and as it is so situated, near the canal and the new offices and workshop, as to make it probable that some other use will be found for it when a Hospital is no longer needed, I think it will be advisable that the reconstruction of the verandah should be carried out in a way that will admit of its being of use so long as the building to which it is to be attached may last. It is probable also that, should the Company wish to dispose of the Hospital some few years hence, it will be more readily saleable if all its parts are in serviceable condition than if they should then be in such a state as to require a considerable and immediate outlay. I would, therefore, recommend the sanction of Rupees 750 in preference to the smaller sum, Rupees 500, included in the estimate.

3. The repairs to the roof, estimated to cost with contingencies Rupees 88, should be debited to Revenue, and if the verandah be constructed in a temporary manner its cost would also be debitable to the same head of charge; but if, as I have suggested, a really substantial addition to the main building be made, I think its cost may be added to that of the

# PROCEEDINGS of the MADRAS GOVERNMENT.

Under date the 20<sup>th</sup> July 1867

Read the following

From the Cons. Engineer  
P. C. Compy. (Here enter No. 41 dated 8 July/67)

For the reasons stated in  
this letter, the Government  
Concurs with the Consulting  
Engineer in considering  
it expedient that the Veranda  
of the Hospital at Kurnool  
should be reconstructed in  
a substantial manner, and  
they accordingly sanction  
the estimated outlay of Rs  
603, which should be added  
to the cost of the building.  
The aggregate of the es-  
timates for the Hospital
