*Proceedings of the Madras Government, Public Works Department,
1st August 1867.*

No. 7. Read the following letter from the Acting Superintending Engineer, 1st Division, to the Secretary to Government, Public Works Department, dated Camp at Dowlaishweram, 15th July 1867, No. 91 :—

- 3 Plans.
- 1 Abstract Estimate.
- 1 Specification.
- 1 Copy of Mr. Sage's letter, No. 602 of 10th December 1866.

1. I have the honor to submit, for the sanction of Government, a plan and estimate, amounting to Rupees 8,511, for constructing a masonry dock in the lunka of the Cocanada canal, about 100 yards below the Dowlaishweram lock.

2. At present the expense and trouble of repairing the tug steamers, dredges, and boats is much increased, owing to there being no dock; the greater portion of the repairs needed consist in repairing and renewing the bottom plates, and the work of joining and rivetting cannot be properly done by men working in the mud, with a very insufficient allowance of elbow room, nor can the Superintendent exercise the requisite amount of scrutiny.

3. If constructed, the proposed dock would seldom be empty; at present Rupees 5,000 is being expended in repairing a dredge, and the steamer "Thistle," never having been repaired, requires a thorough overhauling.

No. 8. ORDER THEREON, 1st August 1867, No. 2,311.

CIVIL WORKS, No 3.

The Government are not disposed to consider this application apart from the proposals which were made in the

Acting Superintending Engineer's letter of the 4th May 1867, No. 32. The estimate will accordingly be returned to Captain Beckley, who will re-submit it with that for the improvement of the Dowlaishweram Workshop buildings called for in the Proceedings of Government of the 22nd May, No. 1,540.

(True Extract.)

(Signed) J. H. M. SHAW STEWART, Major, R. E.,
Under Secretary to Government.

To the Superintending Engineer, 1st Division, with three Plans and three Enclosures.
