Government of Madras.

Public works **DEPARTMENT.**

G.O. No. 2337	Press ~~Mis.~~
57-58	
Dated 2 . 8	1867 .

Not to be folded or roughly handled

Proceedings of the Madras Government, Public Works Department.
2nd August 1867

No. 57. Read the following letter from the Acting Superintending Engineer, 1st Division, to the Secretary to Government, Public Works Department, dated Camp at Dowlaishweram, 19th July 1867, No. 93:—

1. I have the honor to request that I may be informed whether I may make preparations for sending two steam dredges to Ganjam, to deepen the Chilka lake canal to the depth sanctioned by Government, viz., 4 feet below low water spring tides.

2. There are two dredges at Dowlaishweram in good order, and not required for this district.

3. The superstructure of the dredges would have to be taken down and packed below, the decks carefully caulked, and hatches fastened down, they could then be towed to the Ganjam river by a Government tug steamer, but not before the month of December.

4. Mr. Harris informs me that about 300,000 cubic yards will have to be dredged, this would furnish continual work for the two dredges for over one year; if nothing be dredged that can possibly be raised by manual labour, probably this estimate might be diminished.

5. All mud punts required must be made at Ganjam.

No. 58. ORDER THEREON, 2nd August 1867, No. 2,337.

CIVIL WORKS, No. 11.

The Government authorize the Superintending Engineer of the 1st Division to transfer to Ganjam the two dredges now at Dowlaishweram which are reported to be not required in the Godavery District. Captain Beckley will make his own arrangements for the despatch of the dredges, and he will inform the Officer in executive charge of the Chilka canal that their employment should be restricted to such work as cannot be accomplished by manual labour.
