G.O. No. 2352	Press Mis.
87-88	
Dated 3. 8	1867 .

Not to be folded or roughly handled

118

*Proceedings of the Madras Government, Public Works Department,
3rd August 1867.*

No. 87. Read the following letter from the Superintending Engineer, 3rd Division, to the Secretary to Government, Public Works Department, dated Bellary, 22nd July 1867, No. 1,183:—

1. In G. O. No. 1,095, of 9th April 1867, sanction was accorded for Rupees 542 for repairing, &c., a road tunnel of twelve vents on the road from Coodatunny to Kumply, but no money has been allotted.

2. In my diary for May last, I remarked that this tunnel had been breached from an insufficiency of waterway, and that if the 12-vent tunnel was repaired, another of six vents at least would also be required. Instead of doing this, I stated that I thought it would be better to pull down the present 12-vent tunnel, and construct a good road dam. The plan and estimate* for this I now beg to submit

* Rupees 1,600.

for the sanction of Government, and at the same time to state that I have no funds from which to recommend a grant.

3. In paragraph 3 of my letter No. 419, of 10th May, submitting an-estimate for a road dam on Trunk Road No. XII, I begged that, in future Budgets, a sum might be allotted for "Minor New Works, Communications;" but no reply was made to this portion of my letter.

4. I would now request the permission of Government to the entry, in future Budgets, of Rupees 5,000 for each district in this Division for "Minor New Works, Communications," as there are numerous nullahs for which road dams or culverts are required, but for which no allotment is made in the Budget.

No. 88. ORDER THEREON, 3rd August 1867, No. 2,352.

CIVIL WORKS, No. 17.

1. As the Government are unable to provide funds for the road dam referred to in this letter, and the Superin-

tending Engineer reports that he cannot spare any, the execution of the work must be deferred.

2. Adverting to paragraphs 3 and 4, Major Moberly is requested to enter at the foot of Part I of his Budget lists for the ensuing official year, the amount required for "Minor New Works" under "Communications," and the Government will endeavour to make such provision for the purpose in the general Budget as may be practicable.

(True Extract.)

(Signed) J. H. M. SHAW STEWART, Major, R. E.,
Under Secretary to Government.

To the Superintending Engineer, 3rd Division, with Specification.

Dr.
In J. O. No. 1095 of 9th April 1867.
Sanction was accorded for Rupees 542 for repair-
ing sea & Road Tunnel of 12 Hubs on the road from
Coadaunmy to Kumbly; but no money has been
allotted.
In May last, I remarked

2 In my Diary for May last, I remarked that this Tunnel had been created from an insufficiency of waterway, and that, if the 12 Vent Tunnel was repaired, another of 6 Vents at least would also be required. Instead of doing this, I stated that I thought it would be better to pull down the present 12 Vent Tunnel and construct a good Road Dam. The Plan and Estimate for this, I now beg to submit for the sanction of Government, and at the same time to state that I have no funds from which to recommend a grant.

3 In Para 3 of my letter No. 419 of 10th May,
submitting an Estimate for a Road Down on Shunk
Road No. 24, I begged that, in future Budgets, a
sum might be allotted for "Minor New Works, Com-
munications"; but no reply was made to this
portion of my letter.

4 I would now request the permission of Govt. to the entry in future Budgets of Rupees 5000/- for each District in this Division for "Minor New
