*Proceedings of the Madras Government, Public Works Department,
8th August 1867*

No. 183. Read the following Proceedings of the Madras Government in the Military Department, dated 1st August 1867, No. 2,844.

Read the following papers :—

From the Quarter Master General, Head Quarters, Ootacamund, 24th July 1867, No. 454; to the Secretary to Government, Military Department, Fort Saint George.

Adverting to my letter No. 454, dated 26th June 1867, and subsequent correspondence, relative to "pug-mills" at Secunderabad, I have the honor, by order of His Excellency the Commander-in-Chief, to bring to the notice of Government that application has been made for three pairs of bullocks to work the three pug-mills for the 2nd Battalion 21st Fusiliers at Secunderabad, as represented by the Officer Commanding 21st Regiment, in reply to a reference from this Department, as per copy of Memorandum attached.

Memorandum from the Officer Commanding 2-21st R. N. B. Fusiliers, Secunderabad, 10th July 1867, No. $\frac{Q M D}{443}$; to the Quarter Master General, Fort Saint George, Madras.

1. With reference to your Memorandum No. 4,414 of the 3rd instant, and in returning the enclosed corrected indents in triplicate for draught bullocks, &c., to work the pug-mills now being erected, informs that as the latrines in my barracks are so very far apart, it will be absolutely necessary that at least three of these mills should be erected.

2. With regard to their being worked by toties, it would be an utter impossibility, as they are erected in so small a place which only admits of a very short pole and which has not near enough leverage for manual labour, as it takes one man to work it when empty. It will thus become necessary to have draught bullocks.

Communicated to the Department Public Works, with reference to Proceedings of Government in that department, No. 2,147, dated 17th July 1867.

(True Extract.)

(Signed) R. HAMILTON, Colonel,
Deputy Secretary to Government.

No. 184. ORDER THEREON, 8th August 1867, No. 2,401.

MILITARY WORKS, No. 15.

Communicated to the Superintending Engineer of the 4th Division.
