of the Department to pass through the Deputy Inspector
General who unfortunately to him took it into his mind
that he should have some time more under
treatment of another Doctor at the General Hospital in respect
of the long trial he had already. This process being
superfluous and could not consistently with his social
position and habits be complied with, he appealed
to Government. The Government then referred
between the Government and the Inspector General
of Hospitals will show that the objection urged by
him is of a purely technical nature and that it
also extends to Europeans of the like position.
It will thus be seen that the spirit of the stipu-
lations contained in the Pension Rules has been fully
and fully met, that the heads of the Office under

inefficiency. His opinion has further been supported
by the certificate of a professional officer after a long

your Lordships tribunal whether your memorialist
merits the bounty the status of the service pension
can easily be judged. I therefore the Commission
of the Superior Officer the Office may still
be called for as to how the memorialist has been
suffering. After a thorough and deliberate consider-

Sir,

Having served in Government for upwards of fifteen years during which I held and performed most laborious and ~~most difficult~~ ^{most minute} duties viz. 1st as a Minute writer and Interpreter in the Madras Police Courts, 2^d as a Proof writer, Translator and Interpreter in the Principal Sudder Ameen and Session Court of Chingleput and 3^d as a Record keeper and Indexer in the Government Office B. P. W. my health has suffered severely and become subject to incessant attacks of various complaints swelling in the legs, Asthma, and pre cursive of Urine have become standing diseases which in turn and alternately persecute and harass my life and render it altogether unfit for the enjoyment of any earthly comforts. Fifteen years continued service with a corrosive care accompanied by increasing labor forced upon me the above diseases and brought upon me a general debility. The result is I am rendered quite unequal and unfit any longer for active and laborious duties. Thus the Grace of Providence having passed me through this long period of fifteen years and my general debility and the diseases which worry my life being known over the whole Office I respectfully pray that Government will be pleased to permit me to retire at once on the bounty their Rules promise and enable me

to spend the remaining, I apprehend short period
of my life in devotion and prayer to him who had sent
me for service under this generous Government.

Secretary to Government D. P. W.

Sir

With reference to my application for Pension
dated January last I respectfully beg to inform you
that Dr. Duff after a prolonged medical treatment
granted me a certificate of incapacity for further active
Public service, and sent the same in my charge together
with a long and elaborate report of my case to Dr.
Porters. Notwithstanding my long trial under medical
Gentleman of Dr. Duff's position, rank, and extensive
practice, the Deputy Inspector General directed that I
should go and place myself under Dr. Paul's treatment at
the General Hospital, a proceeding not only superfluous
and unnecessary in itself but as one which invalidates
Dr. Duff's certificate and nullifies his treatment, while
it is pregnant with difficulties and hardships involving
considerations and inconvenience of a caste personal and
domestic nature. Thus it will be seen that my health
which has become obviously failing for some years past
can be borne testimony to by the superior Officers in
the Department. A Medical Gentleman of high
reputation has certified it as such. My services
extending

extending over a long period of nearly sixteen years
have been of an arduous and unblemished character
At a time when my growing debility earnestly craved
the support of the Government in whose service I faith-
fully and zealously toiled. I am exceedingly harassed
and exposed to hardships of all descriptions. In conclu-
sion I pray that all the papers in my case may be
called for, considered maturely and such orders passed
as may be consistent with justice and humanity.

The Memo addressed Dr. Paul by the
Deputy Inspector General of Hospitals is herein enclosed

To the Right Honorable Francis Barington Esq.
Governor and President in Council of
Madras, Fort Saint George

The humble petition of V. Sashachellam
Chetty, Suplt. of Records in the Public
Works Department of the Govt. Office

Most respectfully sheweth

That your Lordships Petitioner has
Vide annexed copies served Government faithfully for upwards of 15 years in
of Testimonials various capacities and that he has held the post of
(Appendix A) Superintendent of Records in the Public Works Department
of the Govt. Secretariat for the last 4 years

This will be clear That failing health has latterly made your
in a perusal of the Lordships Petitioner unequal to his various duties and has
Secretary's letter to the been the cause of irregularity in his attendance and that
Surgeon of the 3rd Division he has therefore applied for pension. I did not
Division what the Secretary recommended him to the
Surgeon of the 3rd Division for the necessary certificate but
Dr. Duff declined to give one to your Lordships Petitioner
unless he placed himself under his immediate treatment
for some months.

That your Petitioner accordingly placed himself
under his treatment for upwards of 4 months but
finding this has not done your Petitioner much good.

Dr.

Dr. Duff furnished him with the required certificate accompanied by a full explanation of the case.

That as required by the Rules your Lordships Petitioner appeared before the Deputy Inspector General of the Medical Department for obtaining his counter signature to the certificate but he refused to do so and forwarding the papers to Dr. Paul required your Petitioner to place himself under the treatment of that Officer for a month and then to appear before him.

That your Petitioner appeared before Dr. Paul accordingly but this Gentleman after making a reference on the subject to Dr. Paterson required your Petitioner to become an inpatient in the hospital.

That rules of caste and society of the Hindu community make it derogatory to be an inpatient in a Public Hospital and your Petitioner believes that Government did not intend by their recent orders on the subject to compel all Hindu applicants for Pensions to become inpatients of these Hospitals. He therefore humbly seeks the interference of your Lordship to relieve him from the hardship under which he is placed. If he is to yield to the requisition that he must go into the hospital which has not been usual he will have to suffer great humiliation among his relations and community or if he does not do so he must lose for the rest of his life the advantages of the humane provision which the Government have made by the Pension rules.

9
8 It is not for your Petitioner to question the propriety of Dr. Paterson requiring him to place himself under the treatment of a Doctor of his choosing in the face of the certificate and case furnished by Dr. Duff. But as your Petitioner was under the professional treatment of the latter gentleman for nearly 4 months, an usual period for such a purpose, he begs that orders may be issued to dispose of his case on the papers furnished by that Gentleman and that he may not be put to any further difficulties in the matter.

For which act of justice and generosity your Lordships Petitioner as in duty bound shall ever pray.

I beg to remain

Your Lordships Most Obedt. Servt.

Memo 13

I beg leave to draw your attention to certain important points in connection with my application for Pensions and request they will be considered together with other papers on the subject.

1. The Rules for Pension were framed by the Government of India and ordered for adoption by the several Governments under their control.

2. In administering these rules to the service the Local Government added its own Rules altering them from time to time according to the temper and judgement of every succeeding officer entrusted with the disposal of such matters.

3. The Rules of the Government of India are simple viz after a certain period of service a servant of Government should be allowed a certain rate of pension if his application is supported by a medical certificate.

4. The healthy working of this simple Rule has been so much over clogged by minor Rules that the object of the original Rules has been rendered altogether nugatory.

5. Just like Judicial Courts Medical grades have been created. A party so embarrassed by long trials and split up in his circumstances by conflicting opinions till at last justice is defeated and the whole system instead of being a medium for good has proved to be one more for harm.

6. If every Doctor is permitted in his turn to

treat an applicant in the manner he thinks proper for any time he pleases, the applicants trial is ended. In law his purse alone is concerned, But in medical trial his health and purse are both concerned. All diseases and Dist all require to be paid. His family should be maintained and his pay after all is only one half when the demands upon him is greater than ever.

The conditions required in the Rules of Government of India upon which pension cases ought to be disposed of have been fully met and complied with in my case. To require anything more is as much as subjecting one to all the disasters of a Law suit.

I therefore humbly and respectfully submit that my application for Pension having satisfied all conditions required in the Rules as stated above the boon promised in them will be granted to me without further ^{embarrassment} and distress.

The Rule made by the Local Government requiring the Counter-signature of the Inspector General of Hospitals is I believe simply to enforce attention and care in such cases on the part of the District Surgeon.

Apparently a very grave objection will be raised by the Government that I am at present working as Secretary on the Establishment of Panchayat Charters. The only faithful and truthful reply that I have to make is, after being treated by this Government in the manner complained of I had no alternative. I have to obtain my subsistence so I was obliged to take it up. Besides this, in the spare work I have all the conveniences that my present health

requires such as writing and Printing. Moreover the work is comparatively very light and easy and I have the option of doing the work either at home or in the Office just as it may suit my health. If it was not to these circumstances I could not have taken up this work. I do not think that it is the intention of the Pension Rules that an applicant should have his legs in the grave when he applies for Pension. I therefore pray that the Rules may be correctly and honestly interpreted and my case decided justly and generously.
