**Proceedings of the Madras Government, Public Works Department,
21st August 1867.**

No. 493. Read the following letter from the Officiating Superintending Engineer, 8th Division, to the Secretary to Government, Department Public Works, dated Amboor, 8th August 1867, No. 938:—

1. I have the honor to request sanction for a transfer of Rupees 2,058 from the Budget allotments* aggregating Rupees 12,350 for the Paumben channel works in the Madura District, in order that two bridges may be completed in this year,

* Part II.
Item 324 Rupees 7,350.
,, 325 ,, 5,000.

which are now in progress in the Tinnevely District, but for which there are funds, in part only, available.

2. The Amboor bridge in the Ambasamoodrum talook is being carried on

† G. O. No. 1,494 of 17th May 1867. from a grant† of Rupees 942 from the Reserve Fund, on an estimate of Rupees

1,500, sanctioned in G. O. No. 481 of the 19th February 1867, and the Varanadi bridge, in the same talook, is being executed from Rupees 1,500 raised by private subscriptions, being the moiety of the estimate of Rupees 3,000 sanctioned in G. O. No. 263 of 28th January 1867. There is, therefore, required the balance of Rupees 558 for the Amboor bridge, and Rupees 1,500 for the Varanadi bridge.

3. Both these bridges are on streams which come down very suddenly and rapidly from the western hills, so that when in flood they cut off the traffic altogether; it was fully expected, when the estimates were sanctioned, that the money would be granted in full from the Reserve of this year, and measures were taken accordingly for their being carried on to completion without interruption. From the progress made in the Paumben works there is no probability of the money allotted in the Budget being expended, and the transfer will be between works of the same denomination, original "Communications."

No. 494. ORDER THEREON, 21st August 1867, No. 2,556.

ACCOUNT, No. 64.

As the Government of India are opposed to petty transfers from Budget allotments for New Works to Minor Works

not included in the Budget estimates, the Governor in Council must withhold his sanction to the proposals made in this letter and leave it to the Superintending Engineer to provide the small additional grants which he requires, by transfers within the competence of this Government to sanction.

(True Extract.)

(Signed) J. H. M. SHAW STEWART, Major, R. E.,
Under Secretary to Government.

To the Superintending Engineer, 8th Division.

No. 938 ³² Superintendent Engineer's Office S.D.
 Dindoor 8th August 1867

To
 Captain W. S. Henderson R.E.
 Off. Superintending Engineer
 S. Division

From
 Colonel C. J. Carr R.E.
 Secretary to Government S.D.
 Madras

I have the honor to request sanction for a transfer of Rupees 2,058 from the Bridge allotments aggregating Rupees 12,350 for the Pambur Channel works in the Madurai District, in order that 2 bridges may be completed in this year, which are now in progress in the Tirunelveli District; but for which there are funds, in part only, available. 2. The Ambur bridge in the Amburamam Taluk, is being carried on, from a grant of Rupees 942 from the Reserve fund, on an estimate of Rupees 1500 sanctioned in C.O. No. 181 of the 19th February 1867 and

* Part II
 Altm 324 Rs. 7350
 " 325 " 5000

* C.O. No. ¹⁴⁹⁴~~1497~~
 of 17th May 1867

and the Varanadi bridge in the same way
is being executed from Rupes 1500 raised by
private subscription, being the amount of the
estimate of Rupes 3000 sanctioned in C.C.
No 263 of 28th January 1867. There is therefore
required, the balance of Rupes 558 for the Stunkar
bridge; and Rupes 1500 for the Varanadi
bridge.

3. Both these bridges are on streams
which come down very suddenly and rapidly
from the Western hills, so that when in flood,
they cut off the traffic altogether; it was
fully expected when the estimates were sanc-
tioned, that the money would be granted in
full from the Reserve of this year: and
measures were taken accordingly for their
being carried on to completion, without
interruption. From the progress made in
the Pamden works, there is no probability
of the money allotted in the Budget being
expended, and the transfer will be between
works of the same denomination,
original Communications.
