*Proceedings of the Madras Government, Public Works Department,
11th September 1867.*

No. 259. Read the following letter from the Superintending Engineer, 6th Division, to the Secretary to Government, Department Public Works, dated Tanjore, 28th August 1867, No. 829 :—

1. As directed in G. O. No. 2,522, dated 17th instant, I have the honor to submit a statement of the works on which it is proposed to expend the balance of the Income Tax Fund.

2. In allotting Rupees 1,528-9-7 for metalling a portion of the road from Negapatam to Nagoor, I have the honor to inform you that this sum is the balance on the estimate of Rupees 25,730, which provided for metalling six miles of road. I have just had the road measured, and find that 5 miles and 1,275 yards only have been metalled, viz., from the Carical boundary to about 30 yards south of the Davanadi bridge, on Road No. 36; the Municipal limits terminate at the Davanadi, and the portion of road, for the metalling of which I am anxious to provide, is immediately south of the Davanadi bridge, and is common to Roads Nos. 1 and 36. Road No. 1, branches from No. 36 about 400 yards south of the Davanadi; the traffic along this portion of the road is exceedingly heavy, while the material of which the road embankment is formed is of the worst possible description, consisting of alluvial deposit impregnated with salt.

3. An allotment is again made for the canal between Negapatam and Vedar-niem, because the Rupees 30,000 already allotted has been expended, though not as yet paid away. I have just examined this work, and will report fully upon it in a few days.
