No. 4,537.

From J. R. COCKERELL, Esq., Acting Secretary to the Board of Revenue,

To the Secretary to Government, Revenue Department.

SIR,

I am directed by the Board of Revenue to submit, for the information of Government, a report on the progress of the Local Fund expenditure by the Revenue Department for the year 1866-67, on Public Works proper, accompanied by three Statements numbered 1, 2, and 3, which are in the forms required by Government in their Proceedings, dated 23rd May 1866, No. 1,639, Public Works Department. The delay in the submission of these Returns is owing to the Report from the Collector of Bellary not having been received in time. The Returns from some of the Collectors are not in the shape required by Government which has also caused some delay in the preparation of the Statements.

No. 1 Statement of new works executed during the year.
No 2 Do showing the allotment for new works and repairs.
No 3 Do showing the expenditure on new works and repairs.

2 The Districts noted in the margin are those in which there was expenditure on new works by the Officers of the Revenue Department, but the expenditure in some of these districts is so small that it hardly requires special notice. The particulars are, however, shown in the Statement. The expenditure in North Arcot, Tanjore, Madura, and Malabar was considerable.

Godavery. Kistna. Nellore Bellary Madras.
North Arcot. Tanjore Madura Coimbatore. Malabar.

3 NORTH ARCOT.—In this District a sum of Rupees 6,412 was spent by the Revenue Department. This sum includes Rupees 150 contributed by a certain Zemindar for the construction of the road from Tirtany to the Railway Station. The roads from Chittoor to Gudiattum and from Banaveram to Mahendravadi are fast progressing, and the whole allotments for the year have been expended.

4. TANJORE.—In Tanjore the expenditure by the Revenue Department was Rupees 38,448 during the year under report on the construction of roads and bridges, out of the allotment of Rupees 42,456. Of the eleven works entered in the Statement, eight were newly commenced during the past year. Of these three have been already completed, and the rest are progressing fairly.

5. MADURA.—From the Statement it will be observed that in Madura the Estimate entered for the road between Periacolum and Pullapatti (Rupees 53,135) differs from the original Estimate (Rupees 52,240) as sanctioned by Government, in their Order, dated 12th October 1865, by Rupees. 895. This is, owing to a revision having been made in the Estimate by the late Collector. The excess was sanctioned by the Board in their Proceedings, dated 24th July 1866, No. 5,086, to be met from the Reserve. The allotment entered in the Statement for the work is Rupees 18,526, while that entered in the Budget for 1866-67 is Rupees 26,526. The difference, viz., Rupees 8,000 has been transferred to other works under instructions from the Board, owing to the Collector being unable to expend the whole allotment on the road in consequence of the difficulty of procuring labour.

6. As regards the expenditure incurred on the road No. 20 from Oosilampatty to Andiputty, it will also be observed that it exceeds the allotment by Rupees 3,128. The excess is met from the allotment assigned for its maintenance. The long continued drought in the District has to a certain extent retarded the progress of this work, but measures have been adopted for its early completion. Notwithstanding the obstacles in the way of procuring laborers, almost all the new works undertaken by the Revenue Department during the year have been completed satisfactorily.

7. MALABAR.—In this District a sum of Rupees 4,035 was spent on original works by the Revenue Department from the District Road Fund. Of this sum, Rupees 1,619 appertains to the construction of five wooden bridges on the road from Manantoddy to Panamarum. This line appears from what the Collector states to be an Imperial road, but he does not say under what circumstances money from the District Road Funds has been appropriated for the construction of Bridges on it He is now requested to furnish this information.

8. The following abstract shows the amount spent by the Revenue Department on Public Works proper, both on account of original works and repairs from the District Road Fund.
