Read the following papers :—

No. 399. From the Superintending Engineer, 7th Division, to the Secretary to Government, Department Public Works, dated Camp at Avenashy, 19th July 1867, No. 70.

1. In continuation of my letter No. 55, of 10th June 1867, I have the honor
1 Sketch of site. herewith to submit plan and estimate of
1 Plan. a slaughter-house and cattle-yards pro-
1 Estimate, No. 14, Rupees 5,500. posed to be erected at Cannanore on sites
laid down in the accompanying survey

and selected by a Committee composed of the Garrison Surgeon, Commissariat Officer, and Brigade Major, and attended also by the Assistant Executive Engineer of the Range.

2. Captain Bailey has restricted himself to the use of the most ordinary materials for his sheds and walling, which I fully approve of as suitable for the purpose, and because thatching and mud walls are descriptions of work that are done better on the West Coast than in any other part of the Presidency with which I am acquainted. I have only raised the total of his estimate to Rupees 5,500, to allow for hutting the attendants on the cattle outside the yards. The existing yard, belonging to the Contractor, is a filthy place, and the sooner its use is given up and proper means adopted for daily removal of offal and dung, the better will it be for the salubrity of the Cantonment.

No. 400. From the Acting Commissary General, Madras, to the Secretary to Government, Military Department, Fort St. George, dated Madras, 6th September 1867, No. 4,001.

1. With reference to the Order of Government, dated 25th July 1867, forwarding, for my remarks, a letter from the Superintending Engineer, 7th Division, with plans and estimate for the erection of a slaughter-shed at Cannanore, I have the honor to observe that the same objections advanced against the erection of a single shed at Bellary for the slaughter of both bullocks and sheep, as reported in my letter No. 3,924, dated 4th September 1867, appear to exist at Cannanore, I would, therefore, recommend the erection of separate sheds apart from each other at Cannanore, as well as at other stations where it may be determined to build slaughter-houses.

*Proceedings of the Madras Government, Public Works Department,

No. 807/1,909, dated 29th July 1867. 2. The plans and estimate received with the above Order are herewith returned, together with an original letter from the Quarter Master General to Government on the same subject.

From the Quarter Master General, to the Secretary to Government, Military Department, dated Head Quarters, Ootacamund, 29th July 1867, No. 807/1,909.

1. In returning the letter, &c., from the Superintending Engineer, 7th Division, No. 70, dated 19th July 1867, referred under your docket dated 26th instant, I have the honor, by order, to inform you that the Commander-in-Chief approves of the plan of the slaughter-house, cattle-shed, &c., for Cannanore, therewith forwarded.

2. With regard to the sites selected, His Excellency thinks that the slaughter-house is not at a sufficient distance from the cattle yards. It is barely 300 feet.

3. Adverting to paragraphs 5, 6, and 7 of the Order of Government, dated 28th February 1867, No. 716, I am instructed to observe that it does not appear quite clear that the provision, at the public expense of bullock sheds and yards and sheep pens, was contemplated so long as the meat rations for the European Troops are supplied by contract. This was inadvertently omitted to be noticed in reporting* on the slaughter-house, &c., for Wellington.

* Letter No. 700, dated 13th instant.

Transferred, with Nos. 3,934 and 3,758 of 1867, to the Department Public Works.
