R.O./28

Proceedings of the Madras Government, Revenue Department,
7th January 1867.

Read the following :—

No. 54.

Season Report for the fortnight ending 15th December 1866.

1. It appears from the reports received from the several talooks during the last fortnight, that the district generally is free from cholera, but fever is more or less prevalent, and in the talook of Hindupur it is said to have been very fatal in its effects. The cattle are free from disease.

2. There has been little or no rain; but the crops are everywhere flourishing, except in the talook of Tadpatry, where the cholum crops are stated to be blighted. Agricultural operations are steadily progressing, while cholum, wheat, Bengal gram, and paddy are being sown in some talooks; cumboo, raggy, and other crops are being reaped in others.

3. Famine Works are still in progress, and Relief Houses are still open. The condition of the poor is reported to be somewhat improved in some talooks, where the early crops have been cut; but rates are still comparatively high, though with a tendency to fall.

4. Cotton is being exported in small quantities. Supplies of raggy, cholum, rice, and other grains are coming in from Kurnool, Cuddapah, Dharwar, the Nizam's territory, and Mysore.

(Signed) W. S. LILLY,
Head Assistant Collector for Collector.

BELLARY,
22nd December 1866.

No. 55.
