No. 701. Read the following letter from the Officiating Superintending Engineer, 8th Division, to the Secretary to Government, Department Public Works, dated Pereacolum, 10th September 1867, No. 1,155 :—

1. With reference to G. O. No. 2,522, of the 17th August 1867, I have the honor to recommend that the unexpended balances of Income Tax funds be laid out as follows :— † Abstract Estimate.

Madura, Rupees 69-10-0. On the road from Tirumungalum through Pulney to the Coimbatore boundary. This road is now under construction on a Budget allotment* of Rs. 15,000, and Income Tax funds were formerly granted for this work. * Part II, Item No. 296.

Tinnevelly, Rupees 4,614-3-10

	Rs.	A.	P.
For completing the Amboor bridge in Ambasamoodrum talook, sanctioned in G. O. No. 481 of the 19th February 1867, and for which a sum of Rupees 942* has been granted from the Reserve of the current year ... ... † G. O. No. 1,494 of the 17th May 1867.	558	0	0
For completing the Varanadi bridge in the same talook, sanctioned in G. O. No. 263 of the 28th January 1867 ...	1,500	0	0
For an unfinished portion of Trunk Road No. IV, between Madura and Tinnevelly, for two miles north of the village of Satoor	2,556	3	10
Total...	4,614	3	10

2. I lately represented the need of funds for the completion of the two bridges in the Ambasamoodrum talook, but my proposal to transfer money from a Budget allotment to Minor Works not being approved,‡ the present is an unexpected opportunity of providing the requisite funds, which I cannot obtain from any other source. ‡ *Vide* G. O. No. 2,536 of the 21st August 1867.

3. Immediately north of Satoor, or fifty miles from Tinnevelly, there is a gap of about two miles of the main Trunk Road, which has never been constructed; this gap is just below the junction of the cotton road from Streevilliputhur, and therefore bears the very heavy traffic of the trunk road as well as of the cotton proceeding to Tuticorin, great difficulties are experienced in transit in monsoon times, and the maintenance allowance has been hampered in efforts to make this portion passable. No estimate appears ever to have been furnished up to this time: but in a proposed scheme for laying out the Road Cess Funds, which has gone to the Revenue Board, provision is made for liberating funds from the Imperial Budget to admit of this and other portions of main road, being completed.

4. I have had the enclosed estimate of Rupees 4,600 prepared to be in readiness for an occasion on which to submit it for sanction, and as a good deal may be done to improve the road for the coming monsoon, a grant of Rupees 2,556 if now sanctioned will be a great benefit. Income Tax funds were formerly also granted for this road, and the Collector considers "the surplus Income Tax fund could not be laid out better than in the manner you propose."

No. 703. Read the following letter from the Consulting Engineer for Irrigation and Canal Company, to the Secretary to Government, Department Public Works, dated Madras, 19th September 1867, No. 75:—

1 Cash Account Current C.
1 Appendix to C.
1 Statement P.

1. I have the honor to submit, for the sanction of Government, the accompanying Account Current of cash receipts and disbursements for the Quarter ending 30th June 1867.

2. On the 31st March 1867, the cash in hand was Rupees 1,39,088-1-6; during the quarter Rupees 1,69,695-3-0 were drawn from Government, and Rupees 3,729-2-6 were received as refunds from past expenditure, and Rupees 4-6-6 under deposit. These sums amount in the aggregate to Rupees 3,12,516-13-6, deducting from this total the expenditure in cash during the quarter, viz., Rupees 1,48,878-9-1, the balance of cash in hand on the 30th June 1867 was Rupees 1,63,638-4-5.

3. The adjustments under transfer entries amount in the aggregate to Rupees 826-15-6, of which Rupee 0-1-6 are for the value of stores purchased and brought to account during, but not paid for up to the end of, the quarter, and the remainder, Rupees 826-14-0,* represents the adjustment made in rectification of errors in previous accounts; the nature of these alterations is explained by the entries in the Account Current.

The detailed Statements, showing the particulars of the sums under these heads, have been duly audited and passed by this Office.

5. The alterations in red ink in the Cash Account Current and Statement P have been made in this Office, in order to transfer certain sums from a wrong to a right head of account, in the expenditure of the Hindry and Bellary Divisions, and intimation has been made to the Agent for the alteration of the Office copies of his accounts accordingly.

826-14-0 the remainder, Rupees 826-14-0 represents the adjustment

6. As above noticed, the Agent's cash balance was on the 30th June Rupees 1,63,638, but this is exclusive of amounts drawn by the Board of Directors on loan from the Secretary of State under the new Contract. The Account Current contains no entry of money received in this way, and perhaps up to the close of the quarter none had been remitted by the Board of Directors. At that time £39,000 had been drawn in England, and as the total drawn up to the close of the following month was £41,000, and as the Agent has drawn no money through this Office since June last, it would seem that the works are now being carried on by means of loan Capital, and I suppose that it, in common with other Capital, should appear on the Debtor side of the Account Current when received. The amount of original * Capital remaining undrawn on the 31st July was £17,122, and it would, I think, be convenient that the Agent, when advised of the amount drawn by the Board and of the intention to cease drawing in England, should draw out any balance that may then remain, and so close that account. I shall be glad to be informed of the wishes of Government with respect to these points.

*£ 1,000,000.

7. The Statement P, required by Rule 54, is herewith submitted, from which it will be observed that the total amount drawn from Government
