*Proceedings of the Madras Government, Public Works Department,
31st January 1867.*

No. 628.

Dated 31st January 1867, No. 310.

CIVIL WORKS, No. 126.

1. The Government, having reason to believe that the Madras Water Works project is too extensive to be carried out with sufficient vigour by any Officer who has other duties to attend to, resolve to relieve Mr. Fraser of the charge, and to place it under the general control of the Superintending Engineer, in order that the supervision of the work may be entrusted to the exclusive management of an Officer specially appointed to it, who will have such subordinate assistance as he may require.

2. The Government have applied for the services of Captain Magnay, and, on their being made available, he will take over from Mr. Fraser all Plans, Estimates, and accounts connected with the work, and will at once assume charge of it, and, as it is necessary that he should have the assistance of a subordinate qualified from his knowledge of the country and the people to afford him effective aid, Mr. Sub-Engineer Ottmann will be placed under his orders on the work as soon as the Superintending Engineer can make arrangements for the temporary charge of No. 3 Range of the Madras District during Mr. Ottmann's absence. An additional subordinate will shortly be placed at Colonel Boileau's disposal for employment in the 4th Division.

3. Captain Magnay will employ such minor superintendence as may be required by himself or his Assistants*, debiting the cost to the allotment for Petty Establishments.

* Messrs. Brosnahan and Ottmann.
