*Proceedings of the Madras Government, Public Works Department,
10th October 1867.*

No. 186. Read the following letter from the Government Solicitor, to the Secretary to Government, Public Works Department, dated Madras, 2nd October 1867, No. 645:—

1. I have the honor, by desire of the Officiating Barrack Master, to submit for the sanction of Government, an estimate prepared by the Presidency Executive Engineer, No. 1 or Northern Range, and approved of by the Officiating Barrack Master, of certain improvements and repairs which I consider necessary to that part of the High Court buildings which forms the Offices of the Government Solicitor and Government Pleader.

2. This estimate has been prepared upon the communication addressed by me to the Registrar of the High Court on its Original side, whereof I annex a copy for the information of Government.

From the Acting Government Solicitor and Officiating Government Pleader, to the Registrar of the High Court, dated Madras, 13th July 1867, No. 466.

1. I have the honor to bring to your notice that the wooden stair-case leading from near the entrance of the Administrator General's Office to my Office of Government Pleader is in a most dilapidated and unsafe condition, and that it requires to be immediately repaired to avoid all possible danger to my establishment and the public.

2. The rooms allotted to my Office of Government Pleader are insecure, in their being destitute of substantial doors on the southern and western sides thereof, the existing doors on those sides being partially covered with glass, and thus rendering the rooms unsafe.

3. I think it also necessary, in order to save my Office of Government Solicitor from dust, that the verandah on the eastern side of the rooms, lately occupied as Master's Office, should be enclosed by venetian and glass doors, and that the wooden partition between that verandah and the room to the south of it should be removed, to make it more convenient than it is.

4. I shall be obliged by your giving this communication as early attention as you possibly can, and by your letting the Engineer or Maistry to whom the work is to be entrusted to see me as to the requirements.

No. 187. ORDER THEREON, 10th October 1867, No. 3,138.

CIVIL WORKS, No. 14.

Communicated to the Superintending Engineer of the 4th Division, who will be requested to furnish a plan and estimate of the proposed improvements to the Office-rooms occupied by the Government Solicitor and the Government Pleader in the High Court buildings.
