*Proceedings of the Madras Government, Public Department,
4th October 1867.*

Read the following papers :—

No. 14. From the Collector of Malabar, to the Chief Secretary to Government, Fort Saint George; dated Calicut, 9th March 1867, No. 26.

Adverting to the correspondence noted, I have the honor to enclose a list of promised subscriptions to the proposed Civil Hospital and Dispensary at Vythery, Wynaad.

Collector, to Chief Secretary to Government, dated 4th June 1866, No. 72.
G. O., 15th October 1866, No. 1048.

2. The subscriptions, it will be seen, amount in round numbers to Rupees 3000.

3. A somewhat similar building to that in process of construction at Goodaloor, South East Wynaad, will be required, and I have requested Captain Kennedy to prepare a plan and estimate, which will be duly submitted.

4. I trust that provision for Rupees 3000, which sum may be quoted as the equivalent promised by Government to the sum subscribed, may be made available for 1867-68 for this work, so that early measures may be taken for the preparation of materials, and the building completed before the monsoon of 1868. A further sum of Rupees 1000 will, I presume, be

G. O., dated 29th January 1866, No. 331.

allowed (as at Goodaloor) for a separate Police, &c., Ward. This will give a total of Rupees 7000, which I do not anticipate will be at all too much for the requirements.

MEMORANDUM.

The Under Secretary to Government, Public, &c., Departments, is directed to draw the attention of the Magistrate of Malabar to the Memoranda from this Department, dated 29th April and 21st June 1867, Nos. 128 and 180, and to request that the plan and estimate for the erection of a Civil Dispensary at Vythery, therein referred to, may be submitted without delay.

(Signed) F. BRANDT,
FORT SAINT GEORGE,

To the Magistrate of Malabar.

No. 15. From the Collector of Malabar, to the Acting Chief Secretary to Government, Fort Saint George; dated Calicut, 2nd September 1867, No. 100.

I have the honor to submit plan and estimate for a Civil Hospital and Dispensary at Vythery, Wynaad.

2. There are several minor alterations which I will suggest to Captain Kennedy, and the wards for females and Police must be increased, in my opinion, to 16 feet by 18 feet, from 12 feet by 18 feet as proposed. It would be a great thing to have the male ward enlarged by another 6 or 12 feet to its length. The question is one of funds.

3. But great delay has taken place in getting the plan and estimate in. It only reached me a few days ago. I have merely sent it to the Superintendent of Police and Civil Surgeon here, who generally approve of it, with the slight alterations and the enlargements, if possible, suggested above; and I forward it in its present state with a view to getting sanction for the collection of materials.

Proceedings of the Madras Government, Public Department,
4th October 1867.

If the collection is not commenced at once, there is no hope of much being done this year, and Government are aware how great the need for the building is.

4. If sanction is granted on the present plan and estimate, the alterations can be hereafter settled, and further funds, if possible, provided.

Referred to the Inspector General, Indian Medical Department, for an early report on the plan of the projected Hospital.

FORT SAINT GEORGE,
13th September 1867.

(Signed) A. J. ARBUTHNOT,
Chief Secretary.

No. 16. From W. MACKENZIE, Esq., M. D., Inspector General, Indian Medical Department, to the Chief Secretary to Government, Fort Saint George; dated Fort Saint George, 20th September 1867, No. 372.

Adverting to the letter noted in the margin, referred to me for report under your docket of the 13th instant, I have the honor to submit the following remarks, regarding the plan of a Civil Hospital and Dispensary at Vythery.

From Collector of Malabar, No. 100, of 2nd September 1867.

2. The treatment of Police sick in Dispensaries has been found, by experience, to affect injuriously the usefulness of these institutions, by deterring certain classes of patients from seeking admittance to them. It would, therefore, be preferable that the Police Ward should be a detached building.

3. If the funds at disposal will not admit of this arrangement, then I would recommend that the 'Dispensary' be placed between the Police and Female Wards, so as to segregate the occupants of the latter as much as possible.

4. The Police and Female Wards should both be enlarged; but the dimensions proposed by Mr. Ballard, viz., 18 x 16 feet would give rooms almost square, which is found to be an inconvenient form of ward for sick. I would suggest 18 x 14 feet: this would afford accommodation in each ward for four patients at 60 square feet superficial area and 756 feet cubic contents, which, in a climate like that of Vythery, should suffice. A considerably smaller space, indeed, has been recently laid down as sufficient in estimating Jail accommodation; but it must be borne in mind that the atmosphere of a Hospital is a specially contaminated one.

5. Instead of two bath-rooms to the male ward, I would suggest one bath-room and a separate ward for special cases. This ward should be completely shut off from the other, as well as from the passage leading to the back, and should have a separate entrance at the side.

No. 17. ORDER THEREON, 4th October 1867, No. 1224.

In October last, the Government expressed their willingness to contribute a moiety of the cost of erecting a suitable building for a Hospital and Dispensary at Vythery, and to provide a resident Apothecary, together with medicines, free of charge; the other expenses of the institution falling, as elsewhere, on the community.

2. A sum of nearly Rupees 3000 has, it appears, been subscribed for this purpose, and a plan and estimate are submitted for approval, with a request that an equal sum may be contributed by Government, with an additional sum of Rupees 1000 for a separate Police Ward.

Proceedings of the Madras Government, Public Department,
4th October 1867.

5

3. The plan and site of the projected building, the cost of which is estimated at Rupees 7000, are generally approved, but the Government concur with the Inspector General, Medical Department, in thinking it desirable that the Police Ward should be detached from the Hospital and Dispensary, and that, if the funds available will not permit of this arrangement, the Dispensary should be placed between the Police and Female Wards.

4. The dimensions proposed by Dr. Mackenzie for the wards viz., 18 feet by 14 feet, appear sufficient, and will be adopted.

5. Orders will be at once issued in the Public Works Department for the commencement of the work on the receipt of information that the subscriptions have been realized, and on the understanding that the cost of the building, with the alterations above specified, shall not exceed Rupees 7000, of which sum Rupees 4000 will be contributed by Government, Rupees 1000 being debited to the Police Budget.
