G.O. No. 3157	Press Mis.
225-226	
Dated 12-10-18	67.

Not to be folded or roughly handled

No. 225. Read the following letter from the Superintending Engineer, 5th Division, to the Secretary to Government, Department Public Works, dated Salem, 30th September 1867, No. 133 :—

1. With reference to the Order of Government of the 15th of August, No. 2,498, I have the honor to state that 2,000 Rupees may be transferred from the allotment of Artillery Harness-rooms to the head Minor New Works. This, with the amount proposed to be transferred from "the two male pavilions of the Hospital," will make up the sum of Rupees 3,187.

2. The remaining Rupees 11,000, from the allotment for the Harness-rooms, should be re-transferred to the Hospital. This sum added to the advance of Rupees 19,000, which will be recovered this year, makes up the sum of Rupees 30,000, which the Executive Engineer proposes to spend on the Hospital during 1867-68.

3. G. O. of the 4th September, No. 2,716, communicates the sanction of the Government of India to the estimate for four Harness-rooms with Collar-makers' or Carpenters' Workshop for the Artillery; but, with the approval of His Excellency the Commander-in-Chief, and of the Officer Commanding the Division, the Executive Engineer has now proposed that the Harness-rooms should be deferred till next year. He has entered the whole amount of the estimate in his draft Budget of 1868-69, which has been approved by His Excellency the Commander-in-Chief.

4. When the Executive Engineer originally proposed the transfer of Rupees 13,000 from the Hospital allotment, to meet the cost of two of these four Harness-rooms, it was supposed that funds would be provided from the Reserve, to meet the cost of the numerous works, for which estimates have lately been submitted; but when it was discovered that the Reserve was exhausted, it became necessary to appropriate all the available funds for these works; and to transfer any further sum from the Hospital allotment, in order to meet the cost of the Harness-rooms, would reduce the expenditure on the former below what appears expedient.

5. I forward a copy of the Executive Engineer's letter, No. 378, of the 25th of June, called for in the above G. O.

From the Executive Engineer, Bangalore, to the Superintending Engineer, 5th Division, dated Bangalore, 25th June 1867, No. 378.

1. In continuation of this office No. 365 of 22nd instant, I have the honor to observe that the amount appropriated from the allotment for Minor New Works in this Range up to the 31st ultimo, was Rupees 5,871.

2. Since that date, the following estimates have received sanction :—
