*Proceedings of the Madras Government, Public Works Department,
22nd October 1867.*

No. 458. Read the following letter from the Acting Superintending Engineer, 4th Division, to the Secretary to Government, Public Works Department, dated Madras, 11th October 1867, No. 3,270 :—

2 Plans.
2 Estimates.
1 Specification.

1. As directed in Government Order No. 850, dated 20th March 1867, I have the honor to submit the estimate

and plan prepared by the Ordnance Department, and which I obtained from them on the 16th ultimo, for the wooden stands proposed to be put up in the godown of the Arsenal at Fort St. George, and to return the original enclosures of your Memorandum No. 55, dated 22nd February 1867.

2. The difference in cost between the estimates of the two departments is owing to a difference in the plan, in the materials proposed to be used, and in the rates.

3. It will be observed that Captain Goddard's plan provides ten shelves in all, each shelf 38 feet long by $5\frac{1}{4}$ feet broad. The Ordnance Department plan allows for only six shelves, each $36\frac{1}{2}$ feet long by $5\frac{3}{4}$ feet broad. In the latter arrangement shorter posts are necessarily required than in the former. This department contemplated using teak-wood throughout, whereas the Ordnance Department propose to use mangoe-wood for the planking. The rates of the Ordnance Department are lower, as we cannot procure timber in the local market at the price entered in their estimate. The work, using the same quantities and material, would cost us Rupees 780 instead of Rupees 594 to carry out.

No. 459. ORDER THEREON, 22nd October 1867, No. 3,274.

MILITARY WORKS, No. 37.

The estimate of Rupees 594, submitted with this letter, for the provision of wooden stands in the godowns of the Arsenal in Fort St. George, is sanctioned for immediate execution by the Ordnance authorities, funds for the purpose being supplied under the directions of the Superintending Engineer of the 4th Division in anticipation of a specific allotment, which will be made hereafter.

Superintending Engineer's Office
N^o 3270. 4th Division Madras
11th October 1867.

From
Lieutenant Colonel J. Peam R. E.
Acting Superintending Engineer
4th Division.

To
Colonel C. A. Orr R. E.
Secretary to Government M. D.

Sir,

As directed in Government Order N^o 850 dated 20th March 1867, I have the honor to submit the estimate and plan prepared by the Ordnance Department, and which I obtained from them on the 16th Ultimo, for the wooden stands proposed to be put up in the Godowns of the Arsenal at Fort Saint George, and to return the original enclosures of your Memorandum N^o 55 dated 22nd February 1867.

2. The difference in cost between the estimates of the two departments is owing to a difference in the plan, in the materials proposed to be used, and in the rates.

S.

3. It will be observed that Captain Goddard's plan provides 10 shelves, in all, each shelf 38 feet long by $5\frac{1}{4}$ feet broad. The Ordnance department plan allows for only six shelves, each $36\frac{1}{2}$ feet long by $5\frac{3}{4}$ feet broad. In the latter arrangement shorter posts are necessarily required than in the former. This department contemplated using teakwood throughout; whereas the Ordnance department propose to use mango-wood for the planking. The rates of the Ordnance department are lower, as we cannot procure timber in the local market at the price entered in their Estimate. The work, using the same quantities and material, would cost us Rupees 780 instead of Rupees 594 to carry out.
