*Proceedings of the Madras Government, Public Works Department,
22nd October 1867.*

No. 464. Read the following letter from the Acting Superintending Engineer, 4th Division, to the Secretary to Government, Public Works Department, dated Madras, 11th October 1867, No. 3,301:—

G. O. No. 2,343, dated 3rd August 1867. 1. With reference to the Orders
Do. „ 2,691, „ 2nd September „ quoted in the margin, I have the honor
Do. „ 2,928, „ 20th „ „ to enclose three estimates as follows:—

Repairs to the Steeple of St. Andrew's Church, Rupees 428

Lightning Conductor for „ „ „ 980

Do. do for St. George's Cathedral, „ 890

2. The former I have directed the Executive Engineer to add to the estimate of Rupees 1,260, sanctioned in the first order quoted above, for the repairs of the church from the allotment for Civil Buildings at the Presidency. The actual cost of the repairs required on account of the injury caused by lightning is Rupees 178, but I have added the sum of Rupees 250 to this estimate, owing to the great cost which has been incurred in putting up scaffolding to reach the dome of the church, and which is greater than was anticipated.

3. Indeed the cost of high scaffolding in all the estimates adds very much to the total amount, but I am in hopes the Executive Engineer will be able to recover a portion of the sum by a sale of the materials.

No. 465. ORDER THEREON, 22nd October 1867, No. 3,277.

CIVIL WORKS, No. 47.

The estimates are sanctioned for immediate execution. The Superintending Engineer will provide the funds required for *Repairs*, leaving the outlay under the head *New Works* to be adjusted hereafter by Government.

With reference to the Orders quoted
in the Margin, I have the honor to enclose
3 Estimates as follows,

Repairs to the Steeple of St. Andrews Church Rupees 428.

Lightning Conductor for St. Andrews Church " 980.

Lightning Conductor for St. Georges Cathedral " 890.

2. The former I have directed the
Executive Engineer to add to the Estimate of
Rupees 1260, sanctioned in the first Order quoted
above for the repairs of the Church from the
allotment for Civil Buildings at the Presidency.
The actual cost of the repairs required on account
of the injury caused by lightning is Rupees 178,
but I have added the sum of Rupees 250 to
this Estimate, owing to the great cost which
has been incurred in putting up scaffolding
to

to reach the dome of the Church, and which is greater than was anticipated.

3. Indeed the cost of high scaffolding in all the Estimates adds very much to the total amount; but I am in hopes the Executive Engineer will be able to recover a portion of the sum by a sale of the materials.
