G.O. No.	3299	Press
	5066508	Mis.
Dated	24-10-	1867.

Not to be folded or roughly handled

*Proceedings of the Madras Government, Public Works Department,
24th October 1867.*

Read the following papers :—

No. 506. From the Superintending Engineer, 7th Division, to the Secretary to Government, Department Public Works, dated Calicut, 25th September 1867, No. 110.

1. I have the honor, herewith, to submit revised plans and estimates for the Latrine and Guard Tower of the new

1 Plan of Latrine proposed to be constructed at Calicut Jail.
1 Sketch of do. do.
1 Estimate, No. 22 of 1867-68, for Rupees 2,600
1 Plan of a Guard Room to be constructed in the Jail at Calicut.
1 Estimate, No. 23 of 1867-68, of do. do., Rupees 950.

District Jail at Calicut, as ordered in paragraph 3 of G. O. No. 596 of 27th February.

2. The cost of the former with its enclosure wall will be Rupees 2,600, less Rupees 2,522 the cost of separate privies

in the original estimate; twenty-four men will be accommodated at a time, which is in a proportion of about one to six male adults. Its site and those of two gates are shown in the accompanying sketch plan. The Watch Tower will cost only Rupees 950. But the working rates, being under those of the estimate, I do not propose any alteration of the amount of the existing sanction.

3. The Dresser's quarters, alluded to in paragraph 5 of the Order above quoted, have already been provided in the sanctioned estimate. The cost of those to be dispensed with on account of Warders will show a saving of Rupees 1,770 on the sanction, but this again will be more than counterbalanced by the cost of Police huts, if it be considered necessary to provide any, the regular Police lines being within three-quarters of a mile of the Jail.

Referred to the Judicial Department, with reference to the Memorandum from the Chief Secretary to Government, No. 53 of the 15th February 1867, and to the Orders in this Department, No. 596, dated 27th idem.

(Signed) J. H. M. SHAW STEWART, Major, R. E.,
Under Secretary to Government.

1st October 1867.

Referred to the Inspector General of Jails for his remarks.

(Signed) A. J. ARBUTHNOT,
Chief Secretary.

FORT ST. GEORGE,
4th October 1867.

No. 507. Memorandum from the Chief Secretary to Government, Judicial Department.

(Here enter 16th October 1867, No. 312)

From the Inspector General of Jails, to the Chief Secretary to Government, Fort St. George, dated Ootacamund, 7th October 1867, No. 107.

1. I have the honor to return the plans and estimates for the construction of a Latrine, Watch Tower, and Guard room at the new District Jail, Calicut, together with the letter of the Superintending Engineer, 7th Division, No. 110, referred to me for remark on the 4th instant.

2. LATRINE.—The plan of this building is similar to that of the standard plan of latrine for Central Jails, with some slight requisite modifications, and it appears well suited for the purpose. It is designed to accommodate twenty-four persons at one time. There are four water cisterns, and the four corners are to be used as stores for dry earth. The only points which seem to call for any remark are the following:—I do not observe any section or elevation of the semi-circular fronts to the earth stores, and am therefore in doubt as to what they represent. I recommend that these fronts should be closed by a low wall about two feet high, with the exception of a sufficient space for an entrance to each. If they are left entirely open the earth will be liable to slip down on the floor of the latrine. The gate or door in the Jail wall need not be more than four feet wide, but it is essential that it should be strong and of good workmanship, and that it be fitted with bolts of good iron work. The gate in the latrine wall must be sufficiently wide to admit of the free passage of a cart, as the night-soil will probably be removed through it in that manner.

3. It does not appear how the water is to be conveyed to and from the latrine cisterns. It is desirable that the question of drainage and water-supply to the whole Jail should be considered before the buildings are completed, and I venture to suggest that the Superintending Engineer may be instructed to prepare a plan for the same.

4. WARDER TOWER.—The room on the ground floor will accommodate six men, and the upper-room is built with a low wall, so that the sentry can see over it while he is at the same time well protected.

5. The strip of ground to the west of the latrine yard, and adjoining the Jail wall, is about 300 feet long and 125 feet broad, which is not more than will be required for the garden. Moreover, I am of opinion that it would be very objectionable to locate the Police and their families so near the Jail, and that the advantages expected to be derived from the selection of a spacious and airy site would be injuriously affected thereby. It would seem from Colonel Walker's letter that the regular Police lines are within three-quarters of a mile of the Jail, and I do not think it can be considered a hardship for the men to march that distance. This, however, is a question beyond my province, but I submit that in the event of Government being satisfied of the necessity for building new lines for the Jail guard, that the site should not be within 600 yards of the outer wall of the Jail at the very least.

No. 508. ORDER THEREON, 24th October 1867, No. 3,299.

CIVIL WORKS, No. 51.

1. The letter from the Inspector General of Jails above read will be communicated to the Superintending Engineer of the 7th Division.

2. Colonel Walker will be guided by the suggestions in paragraph 2, and he will furnish a plan showing the arrangements for drainage and water-supply to the Jail at Calicut.

3. The Government agree with Colonel Wilson in considering that the strip of ground to the west of the Latrine yard should be reserved for the garden, and that should the construction of new lines for the Jail guard be considered necessary, a point on which the Superintending Engineer will state distinctly his opinion, the site should be at some distance from the outer wall of the Jail.

No 107

From Lieut. Col. W. J. Wilson
Inspector General of jails

To The Honble: A. J. Arbutnot
Chief Secretary to Government
Fort Saint George

Sir. I have the honor to return the
Plans and Estimates for the Construc-
tion of a Latrine, Watch Tower and
Guard Room at the new District Jail
Calicut together with the letter of the
Superintending Engineer 7th Division
No 110, referred to me for remarks on
the 4th instant.

2 Latrine. The plan of this
Building is similar to that of the
Standard plan of latrine for
Central jails with some slight requisite
modifications, and it appears well
suited for the purpose. It is
designed

designed to accommodate 24
persons at one time - There are four
water cisterns, and the four corners
are to be used as stores for dry earth.
The only points which seem to call
for any remarks are the following.

I do not observe any section or elevation
of the semi circular fronts to the
earth stores, and am therefore in
doubt as to what they represent - I
recommend that these fronts
should be closed by a low wall
about two feet high with the excep-
tion of a sufficient space for an
entrance to each - If they are left
entirely open the earth will be liable
to slip down on the floor of the
latrine - The gate or door in the
jail wall need not be more than
four feet wide, but it is essential
that it should be strong and of
good

good workmanship, and that it
be fitted with bolts of good
iron work - The gate in the latrine
wall must be sufficiently wide
to admit of the free passage of a
cart as the night soil will probably
be removed through it in that
manner.

3 It does not appear how the
water is to be conveyed to and from
the latrine cisterns - It is desirable
that the question of drainage and
water supply to the whole jail should
be considered before the buildings
are completed, and I venture to suggest
that the Superintending Engineer
may be instructed to prepare a
plan for the same.

4 Warder Linner - The room
on the ground floor will accommo-
date six men, and the upper
is one

of the same size, of

room is built with a low wall so that the sentry can see over it while he is at the same time well protected -

5 The strip of ground to the west of the latrine yard and adjoining the Jail Wall is about 300 feet long and 125 feet broad which is not more than will be required for the garden - Moreover I am of opinion that it would be very objectionable to locate the Police and their families so near the Jail, and that the advantages expected to be derived from the selection of a spacious and airy site would be injuriously affected thereby. It would seem from Colonel Walker's letter that the Regular Police Lines are within three quarters of a mile of the

the Jail, ⁵ and I do not think it can be considered a hardship for the men to march that distance. This however is a question beyond my province, but I submit that with the consent of Government being satisfied of the necessity for building new lines for the Jail Guard that the site should not be within 600 yards of the outer wall of the Jail at the very least.

Superintending Eng^r off^r 7th Divⁿ
Calicut, 25th Sep. 1867.

From, Colonel E. W. Walker R.E.
Superintending Engineer 7th Divⁿ

To, Colonel C. A. Orr R.E.
Secretary to Government R.E., Madras

Sir,
I have the honor herewith to submit
Revised Plans and Estimates for the Extension
and Guard Tower of the New District
Jail at Calicut as ordered in para 3
of G. O. N: 596 of 27th February.

The cost of the former with its inner
secure wall will be Rs. 2,600, less Rs. 2,522 the
cost of separate priories in the original esti-
mate. 24 men will be accommodated at
a time which is in a proportion of about
166 Male Adults. Its site & those of 2
gates are shown in the accompanying
Sketch Plan. The Watch Tower will
cost only Rs. 950. But the working rates
being under those of the estimate, I do
not propose any alteration of the am-
ount of the existing sanction.

The (2) priories alluded to in
para 5 of the order above quoted have
already been provided in the sanctioned
estimate. The cost of those to be dispensed
with on account of Wardens will show
a saving of Rupees 1,770 on the sanction;
but this again will be more than com-
pensated by the cost of Police Huts, if
