G.O. No. 3329	Press ~~Mis.~~
575-76	
Dated 25 10 1867	

Not to be folded or roughly handled

*Proceedings of the Madras Government, Public Works Department,
25th October 1867.*

No. 575. Read the following letter from the Acting Superintending Engineer, 4th Division, to the Secretary to Government, Public Works Department, dated Madras, 17th October 1867, No. 3,417:—

1. In reply to paragraph 2 of Order No. 2,948, dated 23rd September 1867,
1 Plan. directing me to report what site I would recommend for the quarters to be erected

at Chepauk for the Married Military Students of the Civil Engineering College, I beg to state that I have gone carefully over the ground, and the Principal of the College was good enough to accompany me.

2. As Government have forbidden the erection of any buildings between the old Chepauk Palace and the sea, and as the ground to the south of it, facing the beach, is taken up by the Public Work Shops and Stores, the Principal's house, and the Presidency College, a site for these quarters is circumscribed by the road from Wallajah gate to the sea and Pycroft's road north and south, and by the road running past the present old quarters and Bell's road on the east and west.

3. The existing quarters occupied by the Married Students, I think, would make the best site for the new buildings, and I would recommend its adoption, if the occupants could be temporarily provided with house-room whilst the new quarters were building. Captain Edgcome objects to it because it is too near the public road, but this road is not a great thoroughfare; the position is high, the materials to a certain extent could be used for making roads, &c., for the new buildings, and it has the advantage of being nearer the College than any alternative site which may probably be chosen.

4. Another good site, if this proposal cannot be adopted, is the ground to the west or back of the present married quarters, near the south-west corner of the Chepauk enclosure. The site is open and airy, and there is abundant space for the buildings. A plan of the site of the Chepauk buildings is enclosed.

No. 576. ORDER THEREON, 25th October 1867, No. 3,329.

MILITARY WORKS, No. 42.

The Government are of opinion that as it is desirable that the proposed new quarters for the married students of the Civil Engineering College at Chepauk should be built in such a position as will cause them to harmonize with other buildings that may hereafter be erected on those grounds, His Excellency in Council will not object to the quarters being placed in or about the site indicated in pencil on the plan now returned to the Superintending Engineer.

(True Extract.)

(Signed) CHARLES A. ORR, Colonel, R. E.,
Secretary to Government.

To the Superintending Engineer, 4th Division, with Plan.

Supr. Engineer's Office to Govt
Madras 17th October 1867

From

Lieut Colonel J. Beau R.R.
As Superintending Engineer to Govt.

To

Colonel C. A. Orr R.R.
Secretary to Government. P.W.D.

Sir,

In reply to paragraph 2 of Order
N^o 2948 dated 23rd September 1867, in
directing me to report what site I
would recommend for the Quarters
to be erected at the bank for the
married Military Students of the
Civil Engineering College, I beg to
state that I have gone carefully
over the ground, and the Principal
of the College was good enough to
accompany me.

2. The Government have
forbidden the erection of any building
between the old Shepauls Palace and
the sea, and as the ground to the south
of it, facing the beach, is taken up by
the Public Work Shops and stores the

Principals

Principal's house and the Presidency College, a site for these Quarters is circumscribed by the road from Wallajah Gate to the sea and Ogeroff's road north and south, and by the road running past the present old Quarters and Bell's road on the east and west.

3. The existing Quarters occupied by the married students, I think, should make the best site for the new buildings, and I would recommend its adoption, if the occupants could be temporarily provided with house room whilst the new Quarters were building. Captain Edgewood objects to it because it is too near the public road, but this road is not a great thoroughfare, the position is high, the materials to a certain extent could be used for making roads for the new buildings, and it has the advantage of being nearer the college than any alternative site which may probably be chosen.

Another.

4. Another good site, if this proposal cannot be adopted, is the ground to the west or back of the present married Quarters near the south west corner of the Shepards enclosure. The site is open and airy and there is abundant space for the buildings. A plan of the site of the Shepards buildings is enclosed.

I have the honor to be
Sir,

Your most obedt servant

Wm. Lenthall Esq.
