G.O. No. <i>432</i>	Press Mis.
<i>231-232</i>	
Dated <i>11-2-18</i>	<i>67</i>

Not to be folded or roughly handled

*Proceedings of the Madras Government, Public Works Department,
14th February 1867.*

No. 231. Read the following letter from the Superintending Engineer, 4th Division, to the Secretary to Government, Public Works Department, dated Camp, Conjeveram, 26th January 1867, No. 4,224 :—

3 Statements.		
New Works	Rupees 44,156	
Repairs, Communication ..	11,048	
	<u>Rupees 55,204</u>	

1. With reference to your Memorandum No. 20, dated 25th January 1867, I have the honor to submit two Statements of savings effected on New Works and Repairs in this division, amounting, in the aggregate, to Rupees 55,204, and to state that I am able to surrender only this amount at present towards the ten per cent. reductions, ordered by Government in G. O. No. 2,601, dated 18th August 1866, as most of the Range Officers have written to say that the full amount allotted during this year for works under their charge will be required to complete them before the 31st March 1867. They have been, however, again warned to surrender all further amounts that they may have the least doubt of spending before the 31st March 1867, and, on their report, I hope to give a further saving to meet the ten per cent. reduction.

2. I take this opportunity also of submitting a Statement of works ordered to be undertaken, but for which no funds, or funds in part only, have been allotted, amounting to Rupees 62,009, and I request that funds may be granted from any source at the disposal of Government, or from savings that may be reported from the allotments of other divisions.

New Works, Rupees 62,009.

Give for all North

IMPERIAL FUNDS.
I.—NEW WORKS.

Statement showing the sums allotted for Public Works in the 4th Division, which are not likely to be expended during the current year.

COAMP CONJEVERAM,
26th January 1867.

(Signed) A. J. M. BOILEAU, Colonel, R. E.,
Superintending Engineer, 4th Division.

No. 232. ORDER THEREON, 14th February 1867, No. 432.

ACCOUNT, No. 32.

1. With this letter the Superintending Engineer of the 4th Division submits two Statements, one showing the allotments which he proposes to surrender to make up in part the ten per cent. reduction ordered in G. O. No. 2,601, dated 18th August 1866, and the other of additional assignments required for works which have been ordered to be undertaken, but for which no funds, or funds in part only, have been provided.

2. With regard to the first of these Statements, which, apart from the very great delay that has occurred in its submission, has not been prepared in the form furnished to the Superintending Engineer, the Government observe that no

- * "Putting weather-boards to the windows of the Judge Advocate General's Office, Fort Saint George."
- * "Dividing three venetian windows on the south-east end of the quarters occupied by the Artillery Officer in the Admiralty House in the Fort."

estimates have yet been received for the works entered in the margin.* Pending the submission of further information regarding the orders in which funds were allotted for the execution of those works, the sums surrendered by the Superintending Engineer will not be taken into account towards the ten per cent. reduction. The sanctions quoted by Colonel Boileau cannot be traced.

3. The estimate for the "Expense Powder Magazine at Saint Thomas' Mount" is entered at Rupees 5,030, instead of Rupees 2,430. The difference (Rs. 2,600) is included in the general estimate of Rupees 85,100 for additions and alterations to the Horse Artillery Lines at that Station.

4. The allotment for the construction of latrines at the General Hospital is Rupees 8,600. No expenditure is entered against the work, and the Superintending Engineer proposes to surrender Rupees 2,000 towards the ten per cent. reduction. On reference to the Progress Report of works at the Presidency for December 1866, the Government observe that Rupees 7,525 is the current year's outlay on the latrines in question up to the 31st idem, and that the work is in progress.

*Proceedings of the Madras Government, Public Works Department,
14th February 1867.*

Under these circumstances, they are unable to admit the reduction which the Superintending Engineer proposes until furnished with fuller information regarding its feasibility.

5. The estimate and the current year's grant for "constructing a wooden palisading at the Lack of the Marine Villa, Government House," are entered respectively at Rupees 2,720, instead of Rupees 2,860, which is the sum sanctioned in G. O. No. 2,101, dated 4th July 1866. This alteration increases the amount surrendered from Rupees 50 to Rupees 190.

6. The amount of the sanctioned estimate for "constructing a latrine in the compound of the Collector's Office at Homes' Gardens" is Rupees 600—Vide G. O. No. 194, dated 21st January 1867.

7. The allotments under Repairs to "Communications" in the Presidency, Madras and North Arcot Districts, are respectively Rupees 6,731,* 99,062,† and 61,439,‡ against Rs. 7,360, 1,09,135, and 60,810, which are incorrectly entered in the Superintending Engineer's Statement. It is presumed that the figures in the column "Probable expenditure in 1866-67" includes transfers already sanctioned.

8. The details of the proposed reductions under the head "Repairs to Communications" should have been furnished for record in the Government Office.

9. According to the Controller's Statement recorded in G. O. No. 2,601, dated 18th August 1866, the reduction to be made in the allotments for the 4th Division is Rupees 83,965, being Rupees 30,633 in excess of the amount now surrendered. Colonel Boileau will be requested to expedite the submission of a Supplemental Return (in the prescribed form) of the further reductions which he proposes to make in compliance with the orders of Government.

10. In the second of the Statements adverted to in paragraph 1, the Superintending Engineer includes Minor New Works which are within his own competence to sanction. The additional funds required for such works should be shown under the heads to which they appertain without the details which are now submitted; and, as there are at present no funds at the disposal of Government, Colonel Boileau will enter the further assignments which are required for the 4th Division in his final Statements of "Savings and Demands" which should have reached the Government on the 1st instant. Care should be taken, in the preparation of these Statements, that excesses over appropriations not exceeding Rupees 500 each are excluded under paragraph 90, Section II. of the Manual of Public Works Accounts.

Sir,

With reference to your Memo
No. 20 dated 25th January 1867 I have the honor
to submit two statements of savings effected
on New Works and Repairs in this Division
amounting in the aggregate to Rs. 55,204, and to state that I am able to
surrender only this amount at present
towards the 10 per Cent reductions ordered
by Government in G. O. No. 2601 dated
18th August 1866 as most of the Range
Officers have written to say that the
full amount allotted during this year
for works under their charge will be
required to complete them before the 31st
March 1867. They have been, however again
warned to surrender all further amounts
that they may have the least doubt of
spending

132. 14th Feb 1867

With regard to the first of these statements, which, apart from the very great delay that has occurred in its submission, has not been prepared in the form furnished to the Superintending Engineer, the Government observe that no estimates have yet been received for the works entered in the margin. Pending the submission of further information regarding the orders in which funds were allotted for the execution of those works, the sums surrendered by the Supg. Engineer will not be taken into account towards the 10 per cent reduction. The sanctions quoted by Colonel Boileau cannot be traced. The

* Putting weather boards to the windows of the Judge Advocate General's Office, Fort St. George -

* Dividing three window windows on the south-east end of the quarters occupied by the Artillery Officer in the Admiralty House in the Fort -

1000
The estimate for the "Expense Powder Magazine at St. Thomas' Mount" is estimated at Rupees 5030, instead of Rupees 2430 - The difference (Rs 2600) is included in the general estimate of Rs 85,100 for additions and alterations to the Horse Artillery Lines at that Station -

The allotment for the construction of Latrines at the General Hospital is Rupees 800. Its expenditure is entered against the work, and the Superintending Engineer proposes to surrender Rupees 2000 towards the 10 per cent reduction. On reference to the progress Report of Works at the Presidency for December 1886, the

the Government observe that Rupees 7525 is the current year's outlay on the Latrines in question up to the 31st Decem, and that the work is in progress. Under these circumstances, they are unable to admit the ^{reduction which the} Superintending Engineer proposes until furnished with fuller information regarding its feasibility.

The estimate and the current year's grant for "Constructing a wooden Palisading at the back of the Marnie Villa, Government House" are entered respectively at Rupees 2720, instead of Rupees 2800 which is the sum sanctioned in G.O. 2108 dated 4th July 1886. This alteration increases

11 a
increases the amount sur-rendered from Rupees 50 to Rupees 190.

The amount of the sanctioned estimate for constructing a Latrine in the Compound of the Collector's Office at Home Gardens is Rupees 600. Vide G.O. 194, dated 21st January 1887.

The allotments under Repairs to "Communications" in the Presidency, Madras and North Arcot districts are respectively Rupees 6731, 99,062, and 61,439, against Rupees 7360, 109,135, and 60,810, which are incorrectly entered in the Superintending Engineer's statement. It is presumed that the figures in the column "Probable Expenditure" in

Budget allotment ———— Rs 7360
Deduct as per G.O. 2827, 8th Sept 1886 — 629
6731

Budget allotment ———— 109,135
Deduct as per G.O. 2741, dated 30th August 1886 — 9983
Add G.O. 2875, dated 8th September 1886 — 92
109,73
99,062

Budget allotment ———— 60,810
Add as per G.O. 2872, dated 8th September 1886 — 629
61,439

in 1866/67" includes trans-
fers already sanctioned.

The details of the pro-
posed reductions under the
head "Repairs to Communications"
should have been furnished
for record in the Government
Office.

According to the Com-
ptroller's Statement recorded
in G.O. No. 2601, dated 18th
August 1866, the reduction
to be made in the allotment
for the 4th Div is Rupees
83,965, being Rupees 30,633
in excess of the ^{amount} now au-
thorised. Colonel Boileau
will be requested to ex-
pedite the submission of
a supplemental Return (in
the prescribed form) of the
further reductions which
he proposes to make in
compliance with the orders.

J

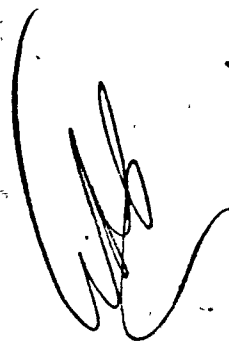

of Government. 17.00

In the second of the
Statements adverted to in
para 1, the Superintending
Engineer includes minor re-
pairs which are within his
competence to sanction.
The additional funds required
for such works should be
shown under the heads
to which they appertain wi-
thout the details which are
now submitted; and, as there
are at present no funds at
the disposal of Government
Colonel Boileau will enter
the further apignments
which are required for the
4th Div in his final State-
ments of "Savings and Disburse-
ments" which should have reached
the Government on the 1st In-
stant. ————— Care

Care should however
be taken, in the preparation
of these Statements, that ex-
-cesses over appropriations not
exceeding Rupees 500 each,
are excluded under para 90,
Sec II of the Manual of Public
Works Accounts.

The amount of the esti-
-mate for "Constructing a coal
-shed and enclosure wall at the
-mint" has been placed at the
Superintending Engineer's dis-
-posal in the order of the 31st
January 1867, No 317.
