*Proceedings of the Madras Government, Public Works Department,
7th January 1867.*

No. 106. Read the following letter from the Acting Superintending Engineer, 1st Division, to the Secretary to Government, Public Works Department, dated Camp at Vizianagrum, 15th December 1866, No. 212 :—

1. I have the honor to submit, for the favorable consideration of Government, a claim made by Mr. Sage for some remuneration for duty (extra to the ordinary charge of a range) done in superintending the Workshop.

2. He points out that the Government in Order No. 1,106, 18th April 1864, sanctioned a maximum salary for Workshop Establishment of Rupees 916, but that up to the present time he has only expended at the rate of Rupees 778, leaving available under this head since 1st May 1864 Rupees $(138 \times 33) = 4,554$. During the year 1864-65 a clear profit was shown from the Workshop of Rupees 3,151-15-7, and in 1865-66 of Rupees 5,031-4-3.

3. Mr. Sage asks for an addition to his salary of Rupees 100 per month, but the Government, if they approve of any grant, may prefer to issue it as a per-centage on shown returns, or in some way make the additional pay contingent on the profits. I would suggest 25 per cent. from 1st May 1864, to be issued, of course, on the making up of the accounts, at the close of the year.

No. 107. ORDER THEREON, 7th January 1867, No. 49.

ESTABLISHMENT, No. 6.

1. Looking to the heavy and responsible duties which, apart from, and in addition to those of a Range Officer, devolve upon Mr. Sage in his position of Superintendent of the Dowlaishweram Workshop, and to the circumstance that, since his assumption of that charge, he has not only succeeded in placing the Factory on a footing of efficiency, but has also advantageously worked it with an Establishment* costing considerably less than the amount sanctioned† for it in

the Order of the 18th April 1864, No. 1,106, the Right Honorable the Governor in Council concurs in opinion with the Superintending Engineer of the 1st Division that Mr. Sage has a fair claim to be remunerated for the additional labor which is imposed upon him, and which he has so long and so well performed without compensation.

2. Entertaining this view, His Lordship in Council is of opinion that the proposed remuneration should be in the form of a regular monthly stipend, and he accordingly sanctions the disbursement to Mr. Sage, so long as he may retain charge of the Workshop, of a sum of Rupees 100 per mensem, to be debited to the funds of the Factory.

3. The Government note that, inclusive of the charge now authorized, the cost of the Dowlaishweram Workshop Establishment will be Rupees 456 per annum within the sanctioned amount.

 Sir,

I have the honor to submit for the favorable consideration of Government a claim made by Mr. Sage for some remuneration for duty (extra to the ordinary charge of a range) done in Superintending the Workshop -

2. He points out that the Government in order No 1106. 18th April 1864 sanctioned a maximum salary for Workshop Establishment of Rs 916. but that up to the present time he has only expended at the rate of Rs 778- leaving available under this head since 1st May 1864 Rs $(138 \times 33 = 4554)$. During the year 1864.65 a clear profit was shewn from the Workshop of Rs 3157. 15. 7 and in 1865.66 of Rs 5031. 4. 3.

3. Mr. Sage asks for an addition to his salary of Rs 100 per month. But the Government, if they approve of any grant, may prefer to issue it as a per

united

percentage on shown returns, or in
some way make the additional pay
contingent on the profits. I would
suggest 25 per cent from 1 May 1864
to be issued of course on the making
up of the accounts, at the close of the
