Proceedings of the Madras Government, Public Works Department,
25th February 1867.

No. 466. Read the following letter from the Officiating Commissioner of Mysore, to the Secretary to the Government of Fort Saint George, Public Works Department, dated Camp, Hassan, 7th February 1867, No. 6,140-43 :—

Adverting to your letter No. 2,862 of 7th September 1866, I have the honor to state that funds will be placed at the disposal of the Executive Engineer of Bangalore on account of the moiety of the cost of enclosing the new Cemetery, chargeable to the Mysore Government, on receipt of the sanction of the Supreme Government to a Supplemental Budget, in which the cost of the above work will be included, as it has been found that funds cannot be provided from the sanctioned regular Budget of the current year, the amount of the estimate being greatly in excess of that originally specified by the Executive Engineer, in his letter No. 353 of 14th August 1865, to the Superintending Engineer, 5th Division.

No. 467. ORDER THEREON, 25th February 1867, No. 550.

CIVIL WORKS, No. 72.

Communicated to the Superintending Engineer of the 5th Division, with reference to the Proceedings of Government, No. 2,861, dated 7th September 1866.

(True Extract.)

(Signed) CHARLES A. ORR, Colonel, R. E.,
Secretary to Government.

To the Superintending Engineer, 5th Division.

From

The Offg. Commissioner

of Mysore

To

The Secretary to the

Government of Fort St. George

Public Works Department

Dated Seringapatam Residency 7th July 1866

Sir,

I have the honor to forward herewith Estimate & Plan for the Construction of a Bridge across the Cauvery at Kodagahalli on the Bangalore & Nagamangala Road, with a request that the Executive Engineer of Bangalore may be directed to submit a Detailed Estimate for the same.

2. The Executive Engineer of Bangalore in reporting on the necessity of the work, observes that the Cauvery at this place is fordable during the greater part of the year, but that during the rains the passage is frequently impeded for days together, and that a Bridge is much required.

3. The Estimate submitted by the Executive Engineer amounts to Rupees 1,00,000 and the Bridge will consist of 20 spans of 50 feet each.

4. The Executive Engineer proposes that the cost of the Bridge should be defrayed from the Public Works Budget Grant, but as the Bridge is required chiefly for the convenience of the Public, I am of opinion that the cost should be met from the Local Fund Budget Grant.

5. I have the honor to request that the Estimate may be submitted to the Government of India for sanction.

I have &c.

(Signed) C. Rangachariar
