Fort Saint George, Public Works Consultation of 30th March 1858.

No. 66. Read the following letter from Colonel C. E. FABER, Chief Engineer; to H. FORBES, Esq., Acting Secretary to Government, dated 8th March 1858, No. 7909.

Sir,

I have the honor to forward, for early submission to Government, an estimate amounting to Rupees (900) nine hundred, for extending the head of the Woorchivandy Channel in the Vennaur, in order to improve its supply of water, the failure of which is stated to Jeopardize a revenue of 905 Rupees.

1 Estimate.
1 Plan.

2. The average revenue of the lands is Rupees 2,326.
3. The Masonry works consist of a new head sluice and four under tunnels.
4. The work appears to be urgently necessary, and I beg to recommend it for immediate sanction.

No. 67. ORDER THEREON, No. 563; dated 27th March 1858.

The Chief Engineer submits, with the letter above recorded, an Estimate amounting to Rupees 900, for extending the head of the Woorchivandy Channel in the District of Tanjore, and recommends it for immediate sanction. The present head of the Channel is represented by the District Engineer to be too low to obtain a steady and sufficient supply of water, and its extension is recommended with the view of saving a loss of revenue averaging Rupees 905 per annum. As this work is solely intended to maintain the existing revenue, the Right Honorable the Governor in Council sanctions its execution on emergency at the estimated cost of Rupees (900) nine hundred.

(Signed) H. FORBES,
Acting Secretary to Government

Central Office of P.O.
