Government of Madras.

Public works DEPARTMENT.

G.O. No. 567 Press Mis.
499-500

Dated 26. 2 1867.

Not to be folded or roughly handled

Proceedings of the Madras Government, Public Works Department, 26th February 1867.

No. 499. Read the following letter from the Superintending Engineer, 6th Division, to the Secretary to Government, Public Works Department, dated Toriore, 12th February 1867, No. 1,346 :—

G. G. O. Circular No. 11, dated 11th February 1865.

1. I have the honor to observe that in the standard plan of a Bowling Alley a complete section of the side-walls is not given.

2. In the plan of the Skittle shed, forwarded on the 16th May 1865, pillars are provided instead of side-walls, while a wall one and a half feet high between the pillars becomes a seat for spectators.

No. 1,333.

3. In the Bowling Alley plan a seat is provided independently of the wall; if the walls are built up to the eaves of the building, windows must be supplied, while if pillars only are provided, the boarding in the floor will be alternately exposed to sun-shine and rain, and will become warped. I would suggest that the roof should be supported by pillars, and that a wall three or three and a half feet high should be provided with honey-comb work above it between the pillars, so as to afford light while it excludes rain.

4. As I have been requested to prepare an estimate for a Bowling Alley, I shall be glad to receive an early reply.

No. 500. ORDER THEREON, 26th February 1867, No. 567.

MILITARY WORKS, No. 26.

The Government have no objection to the arrangement suggested in this letter provided that it meets with the approval of the Military authorities.

(True Extract.)

Colonel, R. E.,
Secretary to Government.

To the Superintending Engineer, 6th Division.
