Fort Saint George, Public Works Consultation of 30th March 1858.

No. 102. Read the following letter from Colonel C. E. FABER, Chief Engineer ; to H. FORBES, Esq., Acting Secretary to Government, dated 15th March 1858, No. 8121.

Sir,

With reference to Extract Minutes of Consultation No. 163, dated 28th January 1858, I have the honor to represent that, as the new Cutcherry at Caroor appears to be of no use to the Revenue Department and will be of great service as the office of the Executive Officer of that Section, its permanent transfer to the Department of Public Works would be, in my opinion, very advantageous.

2. The building is already occupied by the Sub Engineer in charge of the Section by the Collector's permission, and I have only to solicit the orders of Government for the confirmation of Mr. Thomas' obliging and highly convenient arrangement.

Letter from M. J. WALHOUSE, Sub Collector ; to Colonel C. E. FABER, Chief Engineer, dated Coimbatore, 15th February 1858, No. 71.

Sir,

In reply to Major Lawford's letter of the 6th Instant No. 7232, I have the honor to inform you that the new Cutcherry at Caroor is not required for the Sub Collector's use and has indeed been already appropriated by the Sub Engineer as an office and Store room.

Letter from Captain P. M. FRANCIS, District Engineer ; to Colonel C. E. FABER, Chief Engineer, dated Jackatalla, 3rd March 1858, No. 38.

Sir,

With reference to your Proceedings No. 7636, dated 25th Ultimo, I have the honor to inform you that under date the 13th May 1857, I obtained the Collector's permission for the Sub Engineer in charge of the Caroor Range to use the building intended as a new Cutcherry. I did not report the circumstances to the Central office because the occupation appeared to be likely to be only temporary. I had applied for it principally with reference to the large bridge work to be done at Caroor and since then the Government decided against building houses for the Executive Officers if however the building in question can be made over permanently to this Department for the use of the Caroor Range, I shall be much obliged if you will use your influence to effect that purpose.

No. 103. ORDER THEREON, No. 580 ; dated 30th March 1858.

The Chief Engineer requests that the building erected at Caroor for the Sub Collector's Cutcherry, but represented to be of no use to the Revenue Department, may be permanently transferred to the Public Works Department, to be used by the Executive Engineer of the range as an office.

From Chief Engineer, 4th September 1857, No. 3450.
Extract Minutes Consultation, 21st October 1857, No. 1078.
From Chief Engineer, 24th December 1857, No. 8231.
From Board of Revenue, 5th January 1858, No. 24.
Extract Minutes Consultation, 28th January 1858, No. 163.

2. The correspondence which has passed on the subject shews that the building, at present used as an office by the Sub Collector, is a Mantapam belonging to a Pagoda, and situated within its precincts, and that immediately in its front, processions, ceremonies, the daily worship, &c., take place ; as a Cutcherry it has been condemned by the Engineer Officers as "a dark, dirty, bat infested chultry, with little or no light, or air, that never should have been applied to its present purposes." To remedy these evils the new building was erected, and exception is taken to it by the Revenue Department only on the ground that the accommodation which it affords is not sufficient. In para. 3 of the Ex-

Fort Saint George, Public Works Consultation of 30th March 1858.

tract Minutes of Consultation, dated 28th January 1858, No. 163, it was ordered that if further accommodation be required, application should be made in the usual manner, and the Right Honorable the Governor in Council cannot therefore authorize the transfer of the new building to the Public Works Department, till it has been decided that it cannot be used as the Sub Collector's Cutcherry as originally intended; by making the necessary additions.

(Signed) H. FORBES,
Acting Secretary to Government.
