*Fort Saint George, Public Works Consultation of 30th March 1858.*

No. 107. Read the following letter from Colonel C. E. FABER, Chief Engineer; to H. FORBES, Esq., Acting Secretary to Government, dated 18th March 1858, No. 8223.

SIR,

1. In conformity to the orders of Government, contained in Extract from Minutes of Consultation No. 430, of the 11th March 1858, in Public Works Department. I have the honor to report, that the survey of the line for the proposed Canal from Mangalore to Hoosdroog was set on foot in compliance with your instructions No. 1113 dated 31st October 1857, connected with the two main projects of the Madras Irrigation and Canal Company (limited.)

2. When specific orders are issued for making particular investigations, it has appeared a more proper course to carry the orders into execution than to apply for authority to adopt the only means of doing so. In the present instance moreover expedition had been specially enjoined and thus there seemed little reason to anticipate that the conduct of the Chief Engineer would be called in question in authorizing the engagement of the additional Lascars required for the duty.

No. 108. ORDER THEREON, No. 583; dated 30th March 1858.

Ordered that the foregoing letter be recorded.

(Signed) H. FORBES,  
*Acting Secretary to Government.*

Central Office of A. W. S.  
No 8223 Sub. Dated 18 March 1858.

From the Chief Engineer

To the Secretary to Government  
P. W. Department

In conformity to the orders of  
Government contained in Extract from  
Minutes of Consultation No 430 of the  
11 March 1858 in P. W. Department,  
I have the honor to report, that the  
Survey of the line for the proposed  
Canal from Mangalore to Hoosdurg  
was set on foot in compliance with  
your instructions No 1113 dated 31 October  
1857, connected with the two main projects  
of the Madras Irrigation and Canal  
Company Limited.

When specific orders are  
issued for making particular investi-  
gations, it has appeared a more proper  
course, to carry the orders into execution  
than to apply for authority to adopt  
the only means of doing so. In the  
present instance moreover apper-  
tition had been specially enjoined  
and thus there seemed little reason  
to anticipate that the conduct  
of the Chief Engineer would

be

be called in question in authorizing  
the engagement of the additional Lascars  
required for the duty.

Have the honor to be

Sir,

Your most Obedt Servant
